

AS 1478.1—2000

Reconfirmed 2018

AS 1478.1

Australian Standard™

**Chemical admixtures for concrete,
mortar and grout**

Part 1: Admixtures for concrete

This Australian Standard was prepared by Committee BD/33, Chemical Admixture for Concrete. It was approved on behalf of the Council of Standards Australia on 28 June 2000 and published on 4 October 2000.

The following interests are represented on Committee BD/33:

The Association of Consulting Engineers Australia
Australian Chamber of Commerce and Industry
Australian Concrete Repair Association
Australian Pre-mixed Concrete Association
AUSTROADS
Cement and Concrete Association of Australia
Concrete Institute of Australia
Department of Land and Water Conservation NSW
Institution of Engineers Australia
University of New South Wales
University of Western Sydney

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about Standards can be found by visiting the Standards Australia web site at www.standards.com.au and looking up the relevant Standard in the on-line catalogue.

Alternatively, the printed Catalogue provides information current at 1 January each year, and the monthly magazine, *The Australian Standard*, has a full listing of revisions and amendments published each month.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at mail@standards.com.au, or write to the Chief Executive, Standards Australia International Ltd, GPO Box 5420, Sydney, NSW 2001.
