

AS/NZS 1167.2:1999

Australian/New Zealand Standard™

Welding and brazing—Filler metals

Part 2: Filler metal for welding

AS/NZS 1167.2:1999

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee WD/2, Welding and Consumables. It was approved on behalf of the Council of Standards Australia on 16 July 1999 and on behalf of the Council of Standards New Zealand on 24 August 1999. It was published on 5 September 1999.

The following interests are represented on Committee WD/2:

Australian Chamber of Commerce and Industry
Australian Institute of Steel Construction
Bureau of Steel Manufacturers of Australia
Lloyd's Register of Shipping
New Zealand Manufacturers Federation
Welding Technology Institute of Australia

Review of Standards. To keep abreast of progress in industry, Joint Australian/New Zealand Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Joint Standards and related publications will be found in the Standards Australia and Standards New Zealand Catalogue of Publications; this information is supplemented each month by the magazines 'The Australian Standard' and 'Standards New Zealand', which subscribing members receive, and which give details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Joint Standards, addressed to the head office of either Standards Australia or Standards New Zealand, are welcomed. Notification of any inaccuracy or ambiguity found in a Joint Australian/New Zealand Standard should be made without delay in order that the matter may be investigated and appropriate action taken.
