I.S. EN 13141-3:2017

Ventilation for buildings - Performance testing of components/products for residential ventilation - Part 3: Range hoods for residential use without fan

I.S. EN 13141-3:2017

Incorporating amendments/corrigenda/National Annexes issued since publication:

The National Standards Authority of Ireland (NSAI) produces the following categories of formal documents:

I.S. xxx: Irish Standard — national specification based on the consensus of an expert panel and subject to public consultation.

S.R. xxx: Standard Recommendation — recommendation based on the consensus of an expert panel and subject to public consultation.

SWiFT xxx: A rapidly developed recommendatory document based on the consensus of the participants of an NSAI workshop.

This document replaces/revises/consolidates the NSAI adoption of the document(s) indicated on the CEN/CENELEC cover/Foreword and the following National document(s):

NOTE: The date of any NSAI previous adoption may not match the date of its original CEN/CENELEC document.

This document is based on:

National Foreword

I.S. EN 13141-3:2017 is the adopted Irish version of the European Document EN 13141-3:2017, Ventilation for buildings - Performance testing of components/products for residential ventilation - Part 3: Range hoods for residential use without fan

This document does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

For relationships with other publications refer to the NSAI web store.

Compliance with this document does not of itself confer immunity from legal obligations.

In line with international standards practice the decimal point is shown as a comma (,) throughout this document.

EUROPEAN STANDARD

EN 13141-3

NORME EUROPÉENNE

EUROPÄISCHE NORM

June 2017

ICS 91.140.30; 97.040.20

Supersedes EN 13141-3:2004

English Version

Ventilation for buildings - Performance testing of components/products for residential ventilation - Part 3: Range hoods for residential use without fan

Ventilation des bâtiments - Essais de performance des
composants/produits pour la ventilation des
logements - Partie 3 : Hottes de cuisine sans
ventilateur pour utilisation domestique

Lüftung von Gebäuden - Leistungsprüfungen von
Bauteilen/Produkten für die Lüftung von Wohnungen -
Teil 3: Dunstabzughäuben für den Hausgebrauch ohne
Ventilator

This European Standard was approved by CEN on 17 March 2017.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

European foreword

This document (EN 13141-3:2017) has been prepared by Technical Committee CEN/TC 156 “Ventilation for buildings”, the secretariat of which is held by BSI.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by December 2017, and conflicting national standards shall be withdrawn at the latest by March 2019.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN shall not be held responsible for identifying any or all such patent rights.

This document supersedes EN 13141-3:2004.

In comparison to EN 13141-3:2004 the following changes have been made:

- reduction of the scope to exclude air extraction range hoods with fan already taken into account in EN 61591 developed by IEC/TC 59 “Performance of household and similar electrical appliances”;
- adding of a specific clause concerning performance test of odour extraction (see Clause 7) instead of making reference to EN 61591.

EN 13141 consists of the following parts, under the general title Ventilation for buildings – Performance testing of components/products for residential ventilation:

- Part 1: Externally and internally mounted air transfer devices
- Part 2: Exhaust and supply air terminal devices
- Part 3: Range hoods for residential use without fan
- Part 4: Fans used in residential ventilation systems
- Part 5: Cowls and roof outlet terminal devices
- Part 6: Exhaust ventilation system packages used in a single dwelling
- Part 7: Performance testing of a mechanical supply and exhaust ventilation units (including heat recovery) for mechanical ventilation systems intended for single family dwellings
- Part 8: Performance testing of un-ducted mechanical supply and exhaust ventilation units (including heat recovery) for mechanical ventilation systems intended for a single room
- Part 9: Externally mounted humidity controlled air transfer device
- Part 10: Humidity controlled extract air terminal device
- Part 11: Supply ventilation units

According to the CEN-CENELEC Internal Regulations, the national standards organisations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

Introduction

The position of this document in the field of documents for the mechanical building services is shown in Figure 1.

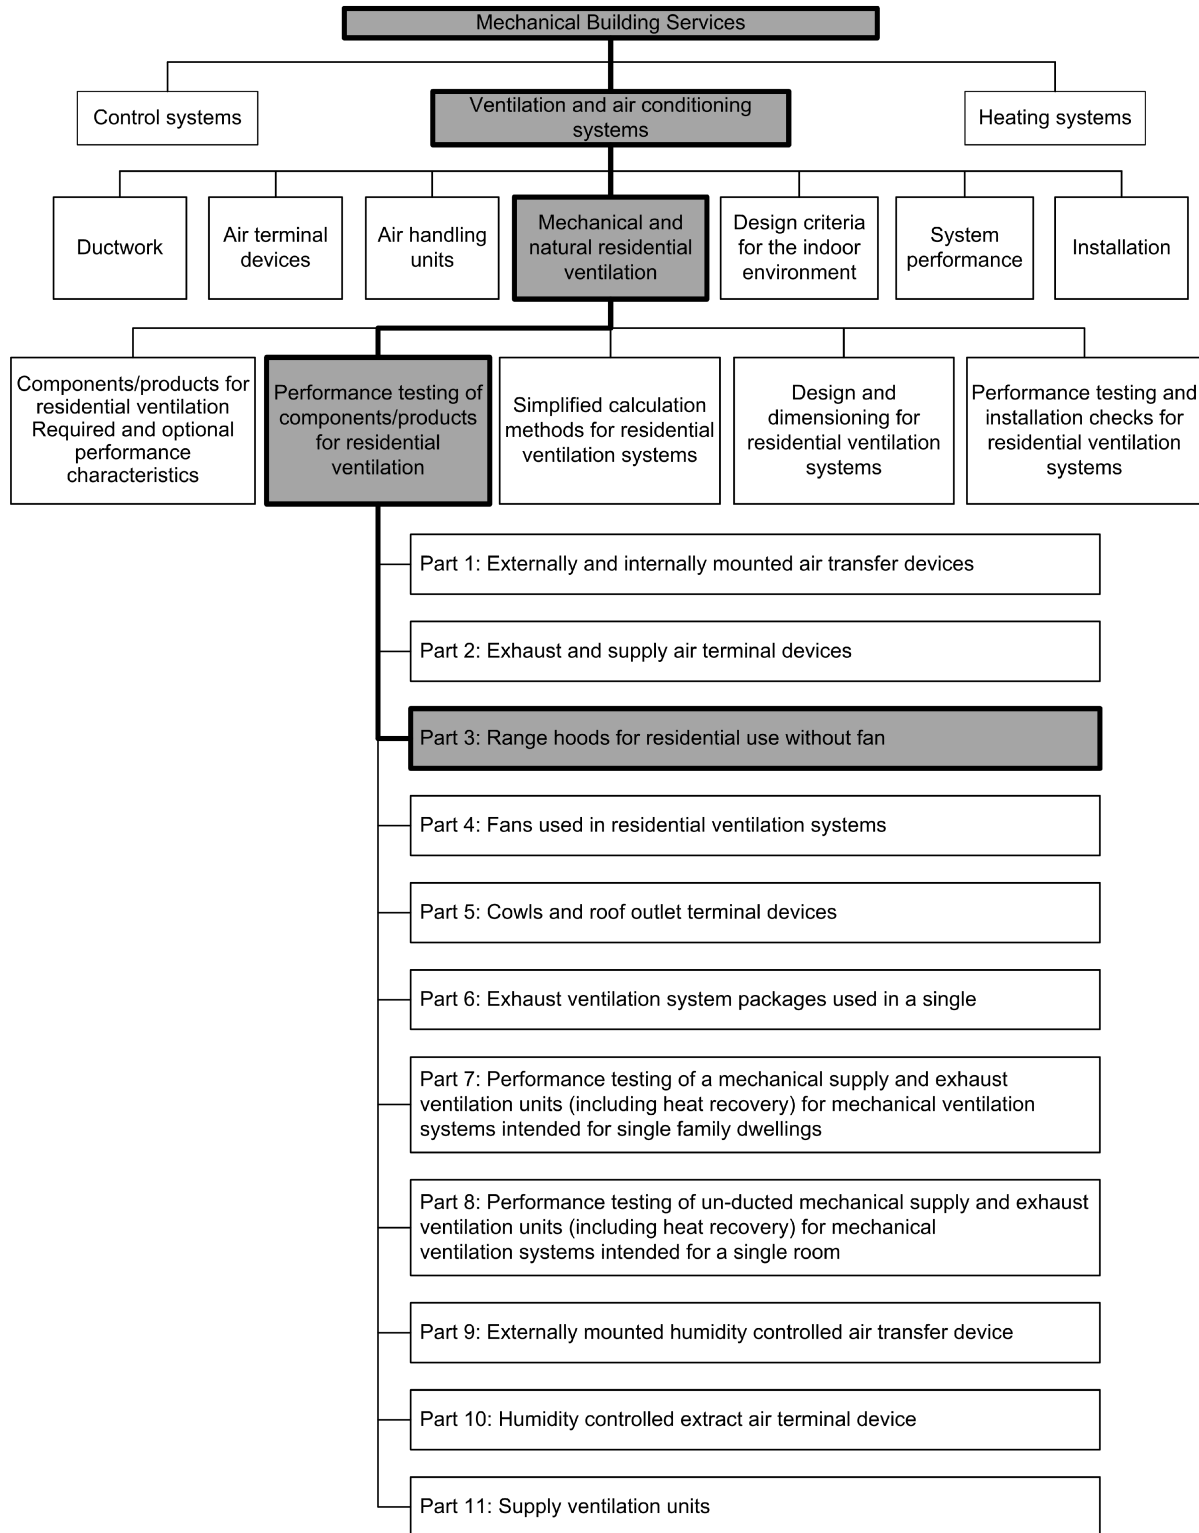

Figure 1 — Position of EN 13141-3 in the field of the mechanical building services

1 Scope

This European Standard specifies methods for measuring the main performance characteristics of range hoods for residential use. It applies to air extraction range hoods without fan.

This European Standard does not specify:

- values for performance characteristics;
- safety requirements in relation with the use of methyl-ethyl ketone (MEK).

For air extraction range hoods with fan see EN 61591.

2 Normative references

The following documents, in whole or in part, are normatively referenced in this document and are indispensable for its application. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

EN 12792:2003, *Ventilation for buildings - Symbols, terminology and graphical symbols*

EN 13141-2:2010, *Ventilation for buildings - Performance testing of components/products for residential ventilation - Part 2: Exhaust and supply air terminal devices*

EN 61591:1997, *Household range hoods and other cooking fume extractors - Methods for measuring performance (IEC 61591:1997)*

3 Terms and definitions

For the purposes of this document, the terms and definitions given in EN 12792 and EN 13141-2 and the following apply.

3.1

range hood

device without fan intended to collect contaminated air from above a cooking appliance

Note 1 to entry: In this document, term “range hood” is used for special type of range hood designed for use in mechanical extract ventilation system with central or individual fan installed outside the range hood.

[SOURCE: EN 12792:2003, definition 85 modified to be in line with the scope]

3.2

grease absorption performance

measure of the percentage of grease retained within a filter

3.3

odour reduction factor

efficiency of the reduction of odours by a device
