Irish Standard Recommendation
S.R. CEN/TR 115-3:2017

Safety of escalators and moving walks - Part 3: Correlation between EN 115- 1:2008+A1:2010 and EN 115-1:2017

S.R. CEN/TR 115-3:2017

Incorporating amendments/corrigenda/National Annexes issued since publication:

The National Standards Authority of Ireland (NSAI) produces the following categories of formal documents:

I.S. xxx: Irish Standard — national specification based on the consensus of an expert panel and subject to public consultation.

S.R. xxx: Standard Recommendation — recommendation based on the consensus of an expert panel and subject to public consultation.

SWiFT xxx: A rapidly developed recommendatory document based on the consensus of the participants of an NSAI workshop.

This document replaces/revises/consolidates the NSAI adoption of the document(s) indicated on the CEN/CENELEC cover/Foreword and the following National document(s):

NOTE: The date of any NSAI previous adoption may not match the date of its original CEN/CENELEC document.

This document is based on:

CEN/TR 115-3:2017

European foreword

This document (CEN/TR 115-3:2017) has been prepared by Technical Committee CEN/TC 10 “Lifts, escalators and moving walks”, the secretariat of which is held by AFNOR.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN [and/or CENELEC] shall not be held responsible for identifying any or all such patent rights.

This document supersedes CEN/TR 115-3:2009.

The reason for the revision of CEN/TR 115-3 was the publication of EN 115-1:2017. CEN/TR 115-3:2009 compared EN 115-1:1995, including amendments A1 and A2, with EN 115-1:2008. CEN/TR 115-3:2017 compares EN 115-1:2017 with EN 115-1:2008+A1:2010.

Introduction

This Technical Report has been prepared to allow the user to compare the existing standard EN 115-1:2017 with the EN 115-1:2008+A1:2010 and vice versa.

1 Scope

This Technical Report applies to escalators and moving walks built in accordance with EN 115-1:2017.

2 Normative references

The following documents, in whole or in part, are normatively referenced in this document and are indispensable for its application. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

EN 115-1:2008+A1:2010, *Safety of escalators and moving walks - Part 1: Construction and installation*

EN 115-1:2017, *Safety of escalators and moving walks - Part 1: Construction and installation*

3 Terms and definitions

For the purposes of this document, the terms and definitions given in EN 115-1:2017 and EN 115-1:2008+A1:2010 apply.

4 List of significant hazards

For the purpose of this document, the list of significant hazards given in EN 115-1:2017 and EN 115-1:2008+A1:2010 apply.

5 Correlation between EN 115-1:2017 and EN 115-1:2008+A1:2010 and vice versa

This Technical Report is presented in the form of two tables. Table 1 provides a correlation between EN 115-1:2008+A1:2010 and EN 115-1:2017 based upon the chronological clause references of EN 115-1:2008+A1:2010. Table 2 provides a similar correlation but using EN 115-1:2017 as the base document for comparison.

Each clause is cross-referenced to its equivalent clause and the table illustrates the status of the text or requirement. Guidance is given on whether the clause has remained unchanged, is modified, is new or has been deleted.

Where appropriate a short explanation is given in the "Remarks" column to highlight changes and new requirements contained in the revision of EN 115-1:2017.
