Irish Standard Recommendation  
S.R. CEN/TR 13387-5:2018

# Child care articles - General safety guidelines - Part 5: Product information

**S.R. CEN/TR 13387-5:2018**

*Incorporating amendments/corrigenda/National Annexes issued since publication:*

The National Standards Authority of Ireland (NSAI) produces the following categories of formal documents:

I.S. xxx: Irish Standard — national specification based on the consensus of an expert panel and subject to public consultation.

S.R. xxx: Standard Recommendation — recommendation based on the consensus of an expert panel and subject to public consultation.

SWiFT xxx: A rapidly developed recommendatory document based on the consensus of the participants of an NSAI workshop.

*This document replaces/revises/consolidates the NSAI adoption of the document(s) indicated on the CEN/CENELEC cover/Foreword and the following National document(s):*

*NOTE: The date of any NSAI previous adoption may not match the date of its original CEN/CENELEC document.*

*This document is based on:*

CEN/TR 13387-5:2018

*Published:*

2018-05-23

*This document was published  
under the authority of the NSAI  
and comes into effect on:*

2018-06-11

## European foreword

This document (CEN/TR 13387-5:2018) has been prepared by Technical Committee CEN/TC 252 “Child care articles”, the secretariat of which is held by AFNOR.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN shall not be held responsible for identifying any or all such patent rights.

This document supersedes CEN/TR 13387-5:2015.

The first edition of CR 13387 was published in 1999 and this is its latest revision. It is a Technical Report which provides guidance information on common hazards that should be taken into consideration when developing safety standards for child care articles.

This new edition of this European Technical Report is a hazard based technical report. In comparison with the previous edition, the main changes related to the section on Product information are:

- When preparing CEN/TR 13387-5, CEN/CLC Guide 11, *Product information relevant to consumers — Guidelines for standard developers*, and ISO/IEC Guide 50, *Safety aspects — Guidelines for child safety in standards and other specifications*, have been taken into consideration.

The CEN/TR 13387 series comprises the following five parts:

- Safety philosophy and safety assessment (CEN/TR 13387-1);
- Chemical hazards (CEN/TR 13387-2);
- Mechanical hazards (CEN/TR 13387-3);
- Thermal hazards (CEN/TR 13387-4);
- Product information (CEN/TR 13387-5).

CEN/TR 13387-5 is intended to be used in conjunction with CEN/TR 13387-1.

## CEN/TR 13387-5:2018 (E)

## 1 Scope

Product information given in standards has a direct impact on safety. It should contribute to avoiding risks to the child. However, product information is not intended to compensate for design deficiencies and does not in itself make a product safer but is a means for the manufacturer to communicate with the user. Reasonable foreseeable misuse and risks of the product should be made explicit and adequate warnings be given.

All product information should be in the language(s) of the country in which the product is sold. It should be presented so that it is unambiguous, legible and easy to read and comprehend.

A risk analysis should be applied to identify those hazards for which safety-related product information is required.

## 2 Normative references

There are no normative references in this document.

## 3 Terms and definitions

For the purposes of this document, the following terms and definitions apply.

ISO and IEC maintain terminological databases for use in standardization at the following addresses:

- IEC Electropedia: available at <http://www.electropedia.org/>
- ISO Online browsing platform: available at <http://www.iso.org/obp>

### 3.1 product information

texts and images that may accompany or be associated with a specific child care article

Note 1 to entry: This includes marking of the product and any packaging, purchase information and instructions for use. Electronic information may be supplied in conjunction with written versions.

### 3.2 marking of the product

product information permanently attached to the child care article

Note 1 to entry: Where the packaging creates the risk, marking should be attached to the packaging. All markings belong to one of the categories 'purchase information' and 'instructions for use', or both. Too much information should be avoided, as this could detract from safety warnings.

### 3.3 purchase information

information provided on the product and/or its packaging at the point of sale that will enable the purchaser to make an informed choice before purchasing the product

Note 1 to entry: This information should be provided in mail order catalogues, etc. as well as on the product and/or its packaging.

### 3.4 instructions for use

information provided regarding safety, assembly, installation, operation, storage, maintenance, repair, etc.
