Irish Standard Recommendation
S.R. CWA 17431:2019

Principles and guidance for licensing
Standard Essential Patents in 5G and the
Internet of Things (IoT), including the
Industrial Internet

S.R. CWA 17431:2019

Incorporating amendments/corrigenda/National Annexes issued since publication:

The National Standards Authority of Ireland (NSAI) produces the following categories of formal documents:

I.S. xxx: Irish Standard — national specification based on the consensus of an expert panel and subject to public consultation.

S.R. xxx: Standard Recommendation — recommendation based on the consensus of an expert panel and subject to public consultation.

SWiFT xxx: A rapidly developed recommendatory document based on the consensus of the participants of an NSAI workshop.

This document replaces/revises/consolidates the NSAI adoption of the document(s) indicated on the CEN/CENELEC cover/Foreword and the following National document(s):

NOTE: The date of any NSAI previous adoption may not match the date of its original CEN/CENELEC document.

This document is based on:

National Foreword

S.R. CWA 17431:2019 is the adopted Irish version of the European Document CWA 17431:2019, Principles and guidance for licensing Standard Essential Patents in 5G and the Internet of Things (IoT), including the Industrial Internet

This document does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

For relationships with other publications refer to the NSAI web store.

Compliance with this document does not of itself confer immunity from legal obligations.

In line with international standards practice the decimal point is shown as a comma (,) throughout this document.

WORKSHOP

June 2019

AGREEMENT

ICS 03.140; 35.240.01

English version

Principles and guidance for licensing Standard Essential Patents in 5G and the Internet of Things (IoT), including the Industrial Internet

This CEN/CENELEC Workshop Agreement has been drafted and approved by a Workshop of representatives of interested parties, the constitution of which is indicated in the foreword of this Workshop Agreement.

The formal process followed by the Workshop in the development of this Workshop Agreement has been endorsed by the National Members of CEN and CENELEC but neither the National Members of CEN and CENELEC nor the CEN-CENELEC Management Centre can be held accountable for the technical content of this CEN/CENELEC Workshop Agreement or possible conflicts with standards or legislation.

This CEN/CENELEC Workshop Agreement can in no way be held as being an official standard developed by CEN and CENELEC and its Members.

This CEN/CENELEC Workshop Agreement is publicly available as a reference document from the CEN Members National Standard Bodies and CENELEC National Electrotechnical Committees.

CEN and CENELEC members are the national standards bodies and national electrotechnical committees of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

European foreword

CWA 17431:2019 was developed in accordance with CEN-CENELEC Guide 29 “CEN/CENELEC Workshop Agreements” and with the relevant provisions of CEN/CENELEC Internal Regulations - Part 2.

A CEN/CENELEC Workshop Agreement (CWA) is an agreement, developed and approved by a CEN/CENELEC Workshop and owned by CEN/CENELEC as a publication, which reflects the consensus of identified individuals and organizations responsible for its contents. A CWA is for voluntary use by those parties who wish to implement its content. A CWA should not be construed as legal advice authoritatively endorsed by CEN/CENELEC.

This Workshop Agreement, including its Annexes (CWA) has been drafted and approved by a Workshop of representatives of interested parties, the constitution of which was supported by CEN and CENELEC following a public call for participation. The Workshop’s Kick-Off meeting took place on 2017-10-06.

The formal process followed by the Workshop in the development of this CWA has been endorsed by the National Members of CEN/CENELEC but neither the National Members of CEN/CENELEC nor the CEN-CENELEC Management Centre can be held accountable for the content of the CWA.

Public consultation for this CWA started on 2018-10-10 and ended on 2018-12-31.

The final text of this CWA was submitted to CEN for publication on 2019-05-22.

Below is a list of companies/organizations that developed and approved this CWA:

- Cuirassier
- Dolby Laboratories Inc.
- EnergySquare
- Ericsson
- Fractus
- France Brevets
- IKUSI (VELATIA)
- InterDigital
- KNOWENCE
- KONINKLIJKE PHILIPS N.V.
- Mitsubishi Electric
- Nokia
- Orange
- OSTIUM Group
- Panasonic R&D Center Germany GmbH
- Qualcomm
- Vitrover

CWA 17431:2019 (E)

IMPORTANT NOTE: This CWA does not comprise legal advice of any kind. Interested parties should seek legal or expert advice in respect of the topics discussed in this CWA. This document is a workshop output and may not represent the complete position of any participant.

This Workshop Agreement is publicly available as a reference document from the National Members of CEN/CENELEC: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

Introduction

Following on from the wave of technology that saw the widespread adoption of smartphones and tablets, we are now riding a new wave of technology which some call a fourth industrial revolution. This new wave is based, among other things, on the spread of the Internet of Things (IoT) where products beyond smartphones and tablets rely on a connection to the internet that will use mobile communications technology such as 5G.

As companies with experience in licensing Standard Essential Patents (SEPs) - as SEP owners and as users of standards - we want to play our part to help new participants in SEP licensing feel more confident negotiating the licences that they may require. To do this we formed a Workshop under the auspices of CEN and CENELEC which has resulted in this CEN/CENELEC Workshop Agreement (CWA), "Principles and Guidance for Licensing Standard Essential Patents in 5G and the Internet of Things (IoT)". This document has been developed and approved by consensus of the organisations responsible for its content.

It has two main elements. The first is a set of Principles and Guidance which draws on our combined experience of SEP licensing for Information and Communication Technologies (ICT)¹ standards. Licensing is a complex and evolving area and the development of new IoT products and services may bring new approaches and practices. We have therefore identified broad principles which should form a solid foundation for future practice.

The second element is a set of Questions and Answers. These are addressed mainly to those who are new to the implementation and use of standardised technology and the licensing of patents that cover those technologies. As with other Q&A documents, it is only intended to be informative and does not cover every situation.

This document ends by looking forward to SEP licensing in 5G and the IoT.

¹ ICT standards here include mobile communication standards, other wireless communication standards such as Wi-Fi, and video and audio compression standards.
