Irish Standard  
I.S. EN 12807:2019

LPG equipment and accessories -  
Transportable refillable brazed steel  
cylinders for liquefied petroleum gas (LPG)  
- Design and construction

**I.S. EN 12807:2019**

*Incorporating amendments/corrigenda/National Annexes issued since publication:*

The National Standards Authority of Ireland (NSAI) produces the following categories of formal documents:

I.S. xxx: Irish Standard — national specification based on the consensus of an expert panel and subject to public consultation.

S.R. xxx: Standard Recommendation — recommendation based on the consensus of an expert panel and subject to public consultation.

SWiFT xxx: A rapidly developed recommendatory document based on the consensus of the participants of an NSAI workshop.

*This document replaces/revises/consolidates the NSAI adoption of the document(s) indicated on the CEN/CENELEC cover/Foreword and the following National document(s):*

*NOTE: The date of any NSAI previous adoption may not match the date of its original CEN/CENELEC document.*

*This document is based on:*

EN 12807:2019

*Published:*

2019-07-10

*This document was published under the authority of the NSAI and comes into effect on:*

2019-07-28

## National Foreword

I.S. EN 12807:2019 is the adopted Irish version of the European Document EN 12807:2019, LPG equipment and accessories - Transportable refillable brazed steel cylinders for liquefied petroleum gas (LPG) - Design and construction

This document does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

For relationships with other publications refer to the NSAI web store.

**Compliance with this document does not of itself confer immunity from legal obligations.**

*In line with international standards practice the decimal point is shown as a comma (,) throughout this document.*

EUROPEAN STANDARD

EN 12807

NORME EUROPÉENNE

EUROPÄISCHE NORM

July 2019

ICS 23.020.35

Supersedes EN 12807:2009

English Version

## LPG equipment and accessories - Transportable refillable brazed steel cylinders for liquefied petroleum gas (LPG) - Design and construction

Équipement et accessoires pour GPL - Bouteilles  
transportables et rechargeables en acier brasé pour  
gaz de pétrole liquéfié (GPL) - Conception et  
fabrication

Flüssiggas-Geräte und Ausrüstungsteile -  
Ortsbewegliche, wiederbefüllbare, hartgelötete  
Flaschen aus Stahl für Flüssiggas (LPG) - Auslegung  
und Herstellung

This European Standard was approved by CEN on 15 March 2019.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

## EN 12807:2019 (E)

### European foreword

This document (EN 12807:2019) has been prepared by Technical Committee CEN/TC 286 “Liquefied petroleum gas equipment and accessories”, the secretariat of which is held by NSAI.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by January 2020, and conflicting national standards shall be withdrawn at the latest by January 2020.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN shall not be held responsible for identifying any or all such patent rights.

This document supersedes EN 12807:2009.

This document has been prepared under a mandate given to CEN by the European Commission and the European Free Trade Association.

The main technical changes include the updating of:

- the normative references;
- the environmental considerations; and
- definitions.

This document has been submitted for reference into the RID [6] and/or in the ADR [5].

All stages of the manufacture, distribution and disposal of these cylinders may have an effect on the environment; CEN/TS 16765 sets out environmental considerations for this document.

According to the CEN-CENELEC Internal Regulations, the national standards organisations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, North Macedonia, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

## **Introduction**

This document calls for the use of substances and procedures that may be injurious to health if adequate precautions are not taken. It refers only to technical suitability and does not absolve the user from legal obligations relating to health and safety at any stage.

It has been assumed in the drafting of this document that the execution of its provisions is entrusted to appropriately qualified and experienced people.

All pressures are gauge unless otherwise stated.

**NOTE** This document requires measurement of material properties, dimensions and pressures. All such measurements are subject to a degree of uncertainty due to tolerances in measuring equipment, etc. It may be beneficial to refer to the leaflet “measurement uncertainty leaflet (SP INFO 2000 27 uncertainty pdf)” [7].

## EN 12807:2019 (E)

### 1 Scope

This document specifies the minimum requirements for the design, construction and testing during manufacture of transportable refillable brazed steel Liquefied Petroleum Gas (LPG) cylinders, of water capacity from 0,5 l up to and including 15 l, exposed to ambient temperatures.

This document applies only to cylinders having a circular cross-section without any longitudinal joint.

### 2 Normative references

The following documents are referred to in the text in such a way that some or all of their content constitutes requirements of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

EN 1044<sup>1</sup>, *Brazing — Filler metals*

EN 10002-1<sup>2</sup>, *Metallic materials - Tensile testing — Part 1: Method of test at ambient temperature*

EN 10204, *Metallic products — Types of inspection documents*

EN 12797, *Brazing — Destructive tests of brazed joints*

EN 12799:2000, *Brazing — Non-destructive examination of brazed joints*

EN 13134, *Brazing — Procedure approval*

EN 14894, *LPG equipment and accessories — Cylinder and drum marking*

CEN/TS 16765, *LPG equipment and accessories — Environmental considerations for CEN/TC 286 standards*

EN ISO 6892-1, *Metallic materials — Tensile testing — Part 1: Method of test at room temperature (ISO 6892-1)*

EN ISO 11117:2008, *Gas cylinders — Valve protection caps and valve guards — Design, construction and tests (ISO 11117:2008)*

EN ISO 11363-1, *Gas cylinders - 17E and 25E taper threads for connection of valves to gas cylinders - Part 1: Specifications (ISO 11363-1)*

EN ISO 13585, *Brazing — Qualification test of brazers and brazing operators (ISO 13585)*

EN ISO 17672, *Brazing — Filler metals (ISO 17672)*
