National Annex NA

(Informative)

National Annex Foreword

This National Annexe (NA) was prepared by NSAI/TC 047/SC 22/WG 01 "Guidance for implementation of I.S. EN ISO 19650-2".

This National Annex is to be used in conjunction with I.S. EN ISO 19650-2:2018.

National Annexes are reviewed as necessary e.g. when a new edition, an amendment or a corrigendum is issued. This National Annex identifies what amendments/corrigenda are addressed. The user should check that the National Annex addresses the latest changes to the European Standard. Previews of all documents are available on www.standards.ie. Any questions should be directed to NSAI.

Where a European Standard has been changed (revised/amended/corrected) and the National Annex has yet to be revised to account for the change(s), the National Annex for the previous version is available.

Engineering judgement must be applied if using guidance contained therein e.g. when selecting appropriate parameters.

The table below indicates which changes have been considered by the relevant National Committee during the life of this edition of the European Standard.

Publication	Date Published	Assessed and taken into account if relevant
I.S. EN ISO 19650-2:2018	2019-01-25	Yes

This National Annex does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a National Annex does not of itself confer immunity from legal obligations.

Acknowledgement

NSAI wishes to acknowledge the assistance of BSI in providing text used in this National Annex.

NA.1 Scope

This document gives guidance for the implementation of I.S. EN ISO 19650-2:2018, within the national context of construction projects. It does not preclude reliance on other agreements or international cooperation.

This document provides the structure for field identification and the metadata for information containers and information exchange standards requirements.

NA.2 Normative References

The following documents are referred to in the text in such a way that some or all of their content constitutes requirements of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

I.S. EN ISO 19650-2:2018, *Organization and digitization of information about buildings and civil engineering works, including building information modelling (BIM) - Information management using building information modelling - Part 2: Delivery phase of the assets (ISO 19650-2:2018)*

NA.3 Terms and definitions

For the purposes of this document, the terms and definitions in I.S. EN ISO 19650-2:2018 and the following apply.

ISO and IEC maintain terminological databases for use in standardization at the following addresses:

— IEC Electropedia: available at <http://www.electropedia.org/>

— ISO Online browsing platform: available at <http://www.iso.org/obp>

level

defined horizontal plane delineating vertical segregation of a project asset

phase

portion of work that arises from splitting up a project in accordance with a definite programme or agreement

[SOURCE: ISO 6707-2:2017, 3.3.5]

programme

statement of sequence and timing of starting and completing the project or parts of it

spatial zone

subdivision of project asset that is a defined physical area

EXAMPLE Apartment types, block or massing definitions, infrastructure asset spatial definitions such as travel lane 1 or footpath, or subpart of a building

stage

distinct period in a project used as a management tool

[SOURCE: ISO 6707-2:2017, 3.3.4]
