### **Keeping Standards up-to-date**

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at [www.saiglobal.com.au](http://www.saiglobal.com.au) or Standards New Zealand web site at [www.standards.co.nz](http://www.standards.co.nz) and looking up the relevant Standard in the on-line catalogue.

For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

**RECONFIRMATION**

**OF**

**AS/NZS 1299:2009**

**Electrical equipment for mines and quarries—  
Explosion-protected three-phase restrained plugs and receptacles  
for working voltages up to and including 3.3 kV**

---

**RECONFIRMATION NOTICE**

Technical Committee EL-023 has reviewed the content of this publication and in accordance with Standards Australia procedures for reconfirmation, it has been determined that the publication is still valid and does not require change.

Certain documents referenced in the publication may have been amended since the original date of publication. Users are advised to ensure that they are using the latest versions of such documents as appropriate, unless advised otherwise in this Reconfirmation Notice.

Approved for reconfirmation in accordance with Standards Australia procedures for reconfirmation on 9 October 2019.

Approved for reconfirmation in New Zealand on behalf of the New Zealand Standards Approval Board on 18 June 2020.

The following are represented on Technical Committee EL-023:

Australian Cablemakers Association  
Australian Chamber of Commerce and Industry  
Australian Industry Group  
Aviation and Marine Engineers Association  
Construction Forestry Miners and Energy Union  
Department of Mines, Industry Regulation and Safety (WA)  
Department of Natural Resources, Mines and Energy (QLD)  
Engineers Australia  
Minerals Council of Australia  
National Association of Testing Authorities Australia  
NSW Department of Planning and Environment  
SafeWork NSW  
University of Newcastle  
Worksafe New Zealand

## NOTES

**AS/NZS 1299:2009**  
(Incorporating Amendment No. 1)

## Australian/New Zealand Standard™

# **Electrical equipment for mines and quarries—Explosion-protected three- phase restrained plugs and receptacles for working voltages up to and including 3.3 kV**
