Preface

This Standard was prepared by the Standards Australia Committee MB-009, Human Resources and Employment.

The objective of this Standard is to set requirements and provide guidelines for establishing, implementing, maintaining, reviewing and improving an effective management system for knowledge management in organizations.

All the requirements of this document are applicable to any organization, regardless of its type or size, or the products and services it provides.

This Standard is identical with, and has been reproduced from, ISO 30401:2018, *Knowledge management systems — Requirements*.

As this document has been reproduced from an International Standard, a full point substitutes for a comma when referring to a decimal marker.

Australian or Australian/New Zealand Standards that are identical adoptions of international normative references may be used interchangeably. Refer to the online catalogue for information on specific Standards.

The terms “normative” and “informative” are used in Standards to define the application of the appendices or annexes to which they apply. A “normative” appendix or annex is an integral part of a Standard, whereas an “informative” appendix or annex is only for information and guidance.

Contents

Preface	ii
Foreword	iv
Introduction	v
1 Scope	1
2 Normative references	1
