

AS 1565—1996
Reconfirmed 2020

Australian Standard[®]

**Copper and copper alloys—
Ingots and castings**

This Australian Standard was prepared by Committee MT/2, Copper and Copper Alloys. It was approved on behalf of the Council of Standards Australia on 17 May 1996 and published on 5 September 1996.

The following interests are represented on Committee MT/2:

AUSTAP

Australian Foundry Institute

Hunter Water Corporation, Australia

Metal Trades Industry Association of Australia

New Zealand Manufacturers Federation

Welding Technology Institute of Australia

Additional interests participating in preparation of Standard:

Non-ferrous foundries

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 95207.
