

AS/NZS 3111:2009
(Incorporating Amendment Nos 1 and 2)
Reconfirmed 2020

AS/NZS 3111:2009

Australian/New Zealand Standard™

**Approval and test specification—
Miniature overcurrent circuit-breakers**

AS/NZS 3111:2009

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee EL-004, Electrical Accessories. It was approved on behalf of the Council of Standards Australia on 22 August 2008 and on behalf of the Council of Standards New Zealand on 18 December 2008.

This Standard was published on 21 January 2009.

The following are represented on Committee EL-004:

Australasian Railway Association
Australian Industry Group
Australian Information Industry Association
Canterbury Manufacturers Association New Zealand
Consumer Electronics Suppliers Association
Consumers' Federation of Australia
Electrical Compliance Testing Association
Electrical Regulatory Authorities Council
International Accreditation New Zealand
Ministry of Economic Development, New Zealand
Plastics Industry Pipe Association of Australia
Testing Interests, Australia

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at www.saiglobal.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

This Standard was issued in draft form for comment as DR 08129.
