Preface

This Standard was prepared by the Standards Australia Committee MB-009, Human Resources and Employment.

The objective of this Standard is to consider and to make transparent the human capital contribution to the organization in order to support sustainability of the workforce. This document is applicable to all organizations, regardless of the type, size, nature or complexity of the business, whether in the public, private or voluntary sector, or a not-for-profit organization.

This Standard defines the terms and definitions used throughout human resource management Standards, e.g. “employee” and “independent contractor”.

This Standard is identical with, and has been reproduced from, ISO 30414:2018, *Human resource management — Guidelines for internal and external human capital reporting*.

As this document has been reproduced from an International Standard, a full point substitutes for a comma when referring to a decimal marker.

Australian or Australian/New Zealand Standards that are identical adoptions of international normative references may be used interchangeably. Refer to the online catalogue for information on specific Standards.

The terms “normative” and “informative” are used in Standards to define the application of the appendices or annexes to which they apply. A “normative” appendix or annex is an integral part of a Standard, whereas an “informative” appendix or annex is only for information and guidance.

Australian Standards are voluntary. They do not include contractual, legal or statutory requirements. Voluntary Standards do not replace laws which take precedence.

Conformance with an Australian Standard does not of itself confer immunity from legal obligations.

Contents

Preface	ii
Foreword	iv
Introduction	v
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Human capital reporting process	2
