

Personal protective equipment

Part 3: Safety footwear (ISO 20345:2011, MOD)

This Australian Standard® was prepared by Committee SF-003, Occupational Protective Footwear. It was approved on behalf of the Council of Standards Australia on 17 April 2019. This Standard was published on 14 May 2019.

The following are represented on Committee SF-003:

- Association of Accredited Certification Bodies
 - Australasian Fire and Emergency Service Authorities Council
 - Australian Chamber of Commerce and Industry
 - Australian Industry Group
 - BSI Group Australian and New Zealand (Certification Bodies)
 - Department of Defence (Australian Government)
 - Energy Networks Australia
 - Footwear Manufacturers Association of Australia
 - Safety Institute of Australia
 - VicLabs (Testing Interests Australia)
-

This Standard was issued in draft form for comment as DR AS 2210.3:2018.

Standards Australia wishes to acknowledge the participation of the expert individuals that contributed to the development of this Standard through their representation on the Committee and through the public comment period.

Keeping Standards up-to-date

Australian Standards® are living documents that reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued.

Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments that may have been published since the Standard was published.

Detailed information about Australian Standards, drafts, amendments and new projects can be found by visiting www.standards.org.au

Standards Australia welcomes suggestions for improvements, and encourages readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at mail@standards.org.au, or write to Standards Australia, GPO Box 476, Sydney, NSW 2001.

Australian Standard®

Personal protective equipment

Part 3: Safety footwear (ISO 20345:2011, MOD)

Originated as part of AS Z2—1952.
Previous editions AS/NZS 2210.2:2000, AS/NZS 2210.3:2000 and AS/NZS 2210.7:2001.
Jointly revised, amalgamated and designated as AS/NZS 2210.3:2009.
Revised and designated as AS 2210.3:2019.

PREFACE

This Standard was prepared by the Standards Australia Committee SF-003, to supersede AS/NZS 2210.3:2009, *Occupational protective footwear, Part 3: Specification for safety footwear (ISO 20345:2004, MOD)*.

The objective of this Standard is to specify basic and additional (optional) requirements for safety footwear used for general purpose. It includes, for example, mechanical risks, slip resistance, thermal risks, ergonomic behaviour.

This Standard is an adoption with national modifications and has been reproduced from ISO 20345:2011, *Personal protective equipment — Safety footwear* and has been varied as indicated to take account of Australian conditions. The modifications in Appendix ZZ are additional requirements. Appendix ZA provides additional information. These appendices have been added at the end of the source text.

Appendix ZZ lists the variations to ISO 20345:2011 for the application of this Standard in Australia.

Appendix ZA (informative) provides guidance for how conformity with this Standard can be demonstrated by the manufacturer or supplier.

As this Standard is reproduced from an International Standard, the following applies:

- (a) In the source text 'this International Standard' should read 'this Australian Standard'.
- (b) A full point substitutes for a comma when referring to a decimal marker.

Australian or Australian/New Zealand Standards that are identical adoptions of international normative references may be used interchangeably. Refer to the online catalogue for information on specific Standards.

The term 'normative' has been used in this Standard to define the application of the appendix to which it applies. A 'normative' appendix is an integral part of a Standard.

CONTENTS

Foreword	iv
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Classification and designs	6
5 Basic requirements for safety footwear	8
5.1 General	8
5.2 Design	10
5.3 Whole footwear	11
5.4 Upper	14
5.5 Vamp and quarter lining	16
5.6 Tongue	17
5.7 Insole and insock	17
5.8 Outsole	18
6 Additional requirements for safety footwear	19
6.1 General	19
6.2 Whole footwear	20
6.3 Upper — Water penetration and absorption	24
6.4 Outsole	24
7 Marking	24
8 Information to be supplied	25
8.1 General	25
8.2 Electrical properties	26
8.3 Insocks	27
Annex A (normative) Hybrid footwear	28
Bibliography	30
