

AS 2159 Supp1—1996
Reconfirmed 2018

AS 2159 Supplement 1—1996

**Piling—Design and installation—
Guidelines**

(Supplement to AS 2159—1995)

This Australian Standard was prepared by Committee CE/18, Piling. It was approved on behalf of the Council of Standards Australia on 14 December 1995 and published on 5 March 1996.

The following interests are represented on Committee CE/18:

Association of Consulting Engineers, Australia
Australian Federation of Construction Contractors
Australian Geomechanics Society
Australian Uniform Building Regulations Coordinating Council
Austroads
Confederation of Australian Industry
CSIRO, Division of Applied Geomechanics
Department of Administrative Services — Australian Construction Services
Institution of Engineers, Australia
Monash University
Railways of Australia Committee
Timber Preservers Association of Australia
University of Sydney
Waterways Authority

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.
