

AS 1349—1986

Reconfirmed 2018

Australian Standard[®]

**Bourdon tube pressure and
vacuum gauges**

[Title allocated by Defence Cataloguing Authority:
GAUGES, PRESSURE AND VACUUM
(Bourdon Tube Type) . . . NSC Gp 66]

This Australian standard was prepared by Committee MS/33, Pressure and Vacuum Gauges. It was approved on behalf of the Council of the Standards Association of Australia on 11 August 1986 and published on 5 September 1986.

The following interests are represented on Committee MS/33:

Australian Institute of Petroleum Ltd
Australian Society of Sugar Cane Technologists
Confederation of Australian Industry
Department of Defence
Electricity Supply Association of Australia
Institution of Engineers Australia
Institute of Instrumentation and Control
National Association of Testing Authorities Australia
Railways of Australia Committee

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.
