

AS 1418.11:2014
(Incorporating Amendment Nos 1, 2 and 3)

AS 1418.11:2014

Cranes, hoists and winches

Part 11: Vehicle-loading cranes (EN 12999:2011, MOD)

AS 1418.11:2014, Cranes, hoists and winches, Part 11: Vehicle-loading cranes (EN 12999:2011, MOD), is a modified adoption of EN 12999:2011, Cranes—Loader cranes, and is reproduced with the permission of CEN, Avenue Marnix 17, B-1000 Brussels, Belgium. All exploitation rights of the European Standards in any form and by any means are reserved worldwide to CEN and its National Members, and no reproduction may be undertaken without express permission in writing by CEN through Standards Australia Limited.

This Australian Standard® was prepared by Committee ME-005, Cranes. It was approved on behalf of the Council of Standards Australia on 4 April 2014. This Standard was published on 27 June 2014.

The following are represented on Committee ME-005:

- Australian Chamber of Commerce and Industry
- Australian Industry Group
- Australian Institute for Non-Destructive Testing
- Bureau of Steel Manufacturers of Australia
- Crane Industry Council of Australia
- Department of Commerce, WorkSafe Division, WA
- Department of Justice and Attorney General, Qld
- Elevating Work Platform Association of Australia
- Engineers Australia
- NSW Department of Trade and Investment, Regional Infrastructure and Services
- Transport for NSW
- WorkCover New South Wales
- WorkSafe Victoria

Additional Interests:

- 600 Cranes Australia
- Cargotec Australia
- Cranetech Australia
- Engineering Assessors
- Field Engineers
- Hyva Pacific/Ferrari Cranes
- Lampson, Australia
- Maxilift Australia
- Metcalf Crane Services
- Palfinger Australia
- PR Spry and Associates
- Terex Lifting Australia
- West Trans Equipment
- Victorian Crane Association

This Standard was issued in draft form for comment as DR AS 1411.18.

Standards Australia wishes to acknowledge the participation of the expert individuals that contributed to the development of this Standard through their representation on the Committee and through the public comment period.

Keeping Standards up-to-date

Australian Standards® are living documents that reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued.

Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments that may have been published since the Standard was published.

Detailed information about Australian Standards, drafts, amendments and new projects can be found by visiting www.standards.org.au

Standards Australia welcomes suggestions for improvements, and encourages readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at mail@standards.org.au, or write to Standards Australia, GPO Box 476, Sydney, NSW 2001.

PREFACE

This Standard was prepared by the Standards Australia Committee ME-005, Cranes, to supersede AS 1418.11—2007, *Cranes, hoists and winches*, Part 11: *Vehicle-loading cranes*.

This Standard incorporates Amendment No. 1 (March 2015), Amendment No. 2 (June 2015) and Amendment No. 3 (December 2018). The changes required by the Amendment are indicated in the text by a marginal bar and amendment number against the clause, note, table, figure or part thereof affected.

The objective of this Standard is to set out requirements for vehicle-loading cranes.

This Standard is an adoption with national modifications and has been based on EN 12999:2011, *Cranes—Loader cranes* and has been varied as set out in Appendix ZZ to take account of Australian conditions.

EN 12999:2011 Amendment 1:2012 has been incorporated into the source text and the amended text has been flagged with ‘A1’ symbols.

As this Standard is reproduced from an European Standard, the following applies:

- (a) In the source text ‘this European Standard’ should read ‘this Australian Standard’.
- (b) A full point substitutes for a comma when referring to a decimal marker.

The terms ‘normative’ and ‘informative’ have been used in this Standard to define the application of the annex or appendix to which they apply. A ‘normative’ annex or appendix is an integral part of a Standard, whereas an ‘informative’ annex or appendix is only for information and guidance.

References to European Standards should be replaced by references to Australian or Australian/New Zealand Standards as follows:

<i>Reference to European Standard</i>	<i>Australian/New Zealand Standard</i>
EN	AS/NZS
61000 Electromagnetic compatibility (EMC)	61000 Electromagnetic compatibility (EMC)
61000-6-2 Part 6-2: Generic standards—Immunity for industrial environments	61000.6.2 Part 6.2: Immunity for industrial environments
61000-6-4 Part 6-4: Generic standards—Emission standard for industrial environments	61000.6.4 Part 6.4: Emission standard for industrial environments

Only European Standards that have been adopted as Australian or Australian/New Zealand Standards have been listed.

CONTENTS

1	Scope	7
2	Normative references	7
3	Terms, definitions and terminology.....	8
3.1	Terms and definitions	8
3.2	Terminology	12
4	List of significant hazards	14
5	Safety requirements and/or safety measures.....	17
5.1	General.....	17
5.2	Structural calculation	18
5.2.1	Information to be given in the calculation	18
5.2.2	Dynamic factors	18
5.2.3	Loads and forces	20
5.2.4	Load combinations.....	21
5.3	Stress analysis.....	22
5.4	Mechanical arrangements.....	23
5.4.1	Stabilizers	23
5.4.2	Manual boom extensions.....	24
5.4.3	Securing for transport.....	24
5.4.4	Hoists	24
5.4.5	Load hooks.....	24
5.5	Hydraulic system	25
5.5.1	General.....	25
5.5.2	Pump	25
5.5.3	Hydraulic reservoir.....	25
5.5.4	Pressure limiting device	25
5.5.5	Hoses, tubes and fittings	26
5.5.6	Precautions against hydraulic line rupture.....	26
5.5.7	Sink rate for boom system.....	26
5.5.8	Slewing mechanism	27
5.6	Limiting and indicating devices	27
5.6.1	General.....	27
5.6.2	Rated capacity limiter.....	28
5.6.3	Lowering facility	28
5.6.4	Rated capacity indicators	29
5.6.5	Limiters	29
5.6.6	Operational warning	29
5.6.7	Acoustic warning	29
5.6.8	Stopping device	29
5.7	Controls	30
5.7.1	General.....	30
5.7.2	Symbols	30
5.7.3	Layout of bi-directional controls.....	31
5.7.4	Guidance for high seat controls	31
5.8	Control stations	31
5.8.1	General.....	31
5.8.2	Raised control stations	32
5.9	Electrical systems	33
5.9.1	General.....	33
5.9.2	Electromagnetic compatibility	33
