AS/NZS 3117:2007

Australian/New Zealand Standard™

Approval and test specification— Bayonet lampholders

AS/NZS 3117:2007

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee EL-041, Lamps and Related Equipment. It was approved on behalf of the Council of Standards Australia on 8 December 2006 and on behalf of the Council of Standards New Zealand on 15 December 2006. This Standard was published on 5 February 2007.

The following are represented on Committee EL-041:

Association of Consulting Engineers, Australia
Australian Electrical and Electronic Manufacturers Association
Australian Industry Group
Certification Interests (New Zealand)
Consumers' Federation of Australia
Electrical Compliance Testing Association
Electrical Regulatory Authorities Council
Energy Efficiency and Conservation Authority of New Zealand
Illuminating Engineering Society of Australia and New Zealand
IES: The Lighting Society
Institution of Professional Engineers (NZ)

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at www.standards.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

This Standard was issued in draft form for comment as DR 06156.

AS/NZS 3117:2007

Australian/New Zealand Standard™

Approval and test specification— Bayonet lampholders

Originated as AS C117—1939.

Revised and redesignated AS 3117—1972.

Fifth edition jointly revised and redesignated AS/NZS 3117:2007.

PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee EL-041, Electrical Accessories to supersede AS 3117—1994 on publication. This Standard will co-exist with AS/NZS 61184 until 30 December 2016, on which date this Standard will be withdrawn. While both Standards remain current, the requirements from either Standard are not allowed to be mixed, unless otherwise stated exclusively in either Standards.

The objective of this Standard is to provide approval and test specifications for bayonet lamp holders for the purposes of safety and approval for sale in Australia and New Zealand.

This Standard satisfies the requirements covered in AS/NZS 3820, *Essential safety requirements for low voltage equipment*.

This Standard is one of a series of Approval and Test Specifications issued by Standards Australia. These Specifications are accompanied by a general Specification AS/NZS 3100:2002, *General requirements for electrical equipment*. The purpose of these Specifications is to outline conditions which must be met to secure approval for the sale and use of electrical equipment in Australia. Only safety matters and related conditions are covered.

Lampholders complying with AS/NZS 61184 are deemed to comply with AS/NZS 3117.

The term ‘normative’ has been used in this Standard to define the application of the appendix to which it applies. A ‘normative’ appendix is an integral part of a Standard.

This Standard does not purport to include all the necessary provisions of a contract.

CONTENTS

	<i>Page</i>
1 SCOPE	4
2 APPLICATION	4
3 REFERENCED DOCUMENTS.....	4
4 DEFINITIONS.....	5
5 DIMENSIONS.....	6
6 CONSTRUCTION.....	6
7 CONTACTS	6
8 MATERIALS.....	7
9 MEANS OF CONNECTION	8
10 EARTHING FACILITIES	8
