AS 1767.2.2—2008

Australian Standard[®]

Insulating liquids

Method 2.2: Test methods— Measurement of relative permittivity, dielectric dissipation factor ($\tan \delta$) and d.c. resistivity

This Australian Standard® was prepared by Committee EL-008, Power Transformers. It was approved on behalf of the Council of Standards Australia on 7 August 2008. This Standard was published on 30 October 2008.

The following are represented on Committee EL-008:

- Australasian Railway Association
 - Australian Chamber of Commerce and Industry
 - Australian Greenhouse Office, Department of the Environment, Water, Heritage and the Arts
 - Australian Industry Group
 - Australian Institute of Petroleum Ltd
 - Electricity Engineers Association, New Zealand
 - Energy Efficiency and Conservation Authority, New Zealand
 - Energy Networks Association
 - Engineers Australia
 - Testing Interests (Australia)
-

This Standard was issued in draft form for comment as DR 06552.

Standards Australia wishes to acknowledge the participation of the expert individuals that contributed to the development of this Standard through their representation on the Committee and through the public comment period.

Keeping Standards up-to-date

Australian Standards® are living documents that reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued.

Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments that may have been published since the Standard was published.

Detailed information about Australian Standards, drafts, amendments and new projects can be found by visiting **www.standards.org.au**

Standards Australia welcomes suggestions for improvements, and encourages readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at **mail@standards.org.au**, or write to Standards Australia, GPO Box 476, Sydney, NSW 2001.

RECONFIRMATION NOTICE

Technical Committee EL-008 has reviewed the content of this publication and in accordance with Standards Australia procedures for reconfirmation, it has been determined that the publication is still valid and does not require change.

Certain documents referenced in the publication may have been amended since the original date of publication. Users are advised to ensure that they are using the latest versions of such documents as appropriate, unless advised otherwise in this Reconfirmation Notice.

Approved for reconfirmation in accordance with Standards Australia procedures for reconfirmation on 14 November 2018.

The following are represented on Technical Committee EL-008:

Australian Industry Group

Australian Institute of Petroleum Ltd

Electricity Engineers Association (New Zealand)

Energy Efficiency & Conservation Authority of New Zealand

Energy Networks Australia

Engineers Australia

Rail Industry Safety and Standards Board
