

AS/NZS 4761.1:2003  
(Incorporating Amendment No. 1)

AS/NZS 4761.1

Australian/New Zealand Standard™

**Competencies for working with  
electrical equipment for hazardous  
areas (EEHA)**

**Part 1: Competency Standards**

### **AS/NZS 4761.1:2003**

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee P-012, EEHA Competency Standards Advisory Panel. It was approved on behalf of the Council of Standards Australia on 29 November 2002 and on behalf of the Council of Standards New Zealand on 27 November 2002. It was published on 21 January 2003.

---

The following are represented on Committee P-012:

Auckland Regional Chamber of Commerce  
Australian Chamber of Commerce and Industry  
Australian Coal Association  
Australian Electrical and Electronic Manufacturers Association  
Australian Gas Association  
Australian Industry Group  
Australian Institute of Petroleum  
Certification Bodies (Australia)  
Department of Infrastructure, Energy and Resources (Tasmania)  
Department of Mineral Resources NSW  
Department of Natural Resources and Mines (Qld)  
Electricity Supply Association of Australia  
ElectroComms and Energy Utilities Qualifications Standards Body of Australia  
Electrotechnology Industry Training Organisation  
Institute of Electrical Inspectors  
Institute of Instrumentation and Control Australia  
Institution of Engineers Australia  
Mining Electrical and Mining Mechanical Engineering Society  
Ministry of Economic Development (New Zealand)  
New South Wales Grain Corporation  
New Zealand Hazardous Areas Electrical Coordinating Committee  
TAFE NSW  
WorkCover New South Wales

#### **Keeping Standards up-to-date**

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Australia web site at [www.standards.com.au](http://www.standards.com.au) or Standards New Zealand web site at [www.standards.co.nz](http://www.standards.co.nz) and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia International or Standards New Zealand at the address shown on the back cover.

## PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee, P-012, EEHA Competency Standards Advisory Panel.

A1 | *This Standard incorporates Amendment No. 1 (March 2003). The changes required by the Amendment are indicated in the text by a marginal bar and amendment number against the clause, note, table, figure or part thereof affected.*

An equivalent set of competency (unit) Standards has been formatted for the New Zealand Qualifications Framework by the ElectroTechnology Industry Training Organization (ETITO), and endorsed by the Joint Committee P-012. The Unit Standards are registered with the New Zealand Qualifications Authority (NZQA), under the domain *Electrical Equipment for Hazardous Areas*.

The objective of this Standard is to set out the generic cross-industry competencies needed for work associated with electrical equipment for hazardous areas; these competencies are intended for use by any industry sector or enterprise with regards to explosion-protection related to the relevant functional areas.

These Competency Standards are a replica of those included in the EE-Oz Training Standards *National Electrotechnology Training Package*, endorsed by the National Training Quality Council (NTQC) (ANTA's endorsing body). To ensure consistency and concurrence between the two sets of documents (this series of Standards and the National Electrotechnology Training Package) maintenance and revision of these documents will always be carried out simultaneously through the established Joint Standards Committee P-012, EEHA Competency Standards Advisory Panel, and amendments thereto processed in accordance with the respective organizational requirements.

This Standard forms part of a series covering the competencies for working with electrical equipment for hazardous areas, and the training materials/components supporting such competencies.

The series is as follows:

AS/NZS

4761 Competencies for working with electrical equipment for hazardous areas (EEHA)

4761.1 Part 1: Competency Standards (this Standard)

4761.2 Part 2: Guide for training and assessment

The terms 'normative' and 'informative' have been used in this Standard to define the application of the appendices to which they apply. A normative appendix is an integral part of a Standard, whereas an informative appendix is only for information and guidance.

## CONTENTS

	<i>Page</i>
SECTION 1 SCOPE AND GENERAL	
1.1 SCOPE .....	7
1.2 APPLICATION.....	7
1.3 REFERENCED DOCUMENTS .....	7
1.4 DEFINITIONS AND TERMS.....	8
SECTION 2 UNITS OF COMPETENCY	
2.1 SCOPE .....	16
2.2 UTE NES 010 B—REPORT ON THE INTEGRITY OF EXPLOSION- PROTECTED EQUIPMENT IN HAZARDOUS AREAS.....	17
2.3 UTE NES 012 B—ATTEND TO BREAKDOWNS IN HAZARDOUS AREAS .....	19
2.4 UTE NES 020 A—USE AND MAINTAIN THE INTEGRITY OF PORTABLE GAS DETECTION DEVICES .....	21
2.5 UTE NES 107 B—INSTALL EXPLOSION-PROTECTED EQUIPMENT AND WIRING SYSTEMS .....	23
2.6 UTE NES 116 A—INSTALL AND MAINTAIN INTEGRITY OF FIXED GAS DETECTION EQUIPMENT.....	25
2.7 UTE NES 214 B—MAINTAIN EQUIPMENT IN HAZARDOUS AREAS .....	27
2.8 UTE NES 215 B—OVERHAUL AND REPAIR EXPLOSION-PROTECTED EQUIPMENT .....	30
2.9 UTE NES 407 B—ASSESS EXPLOSION-PROTECTED EQUIPMENT FOR COMPLIANCE WITH STANDARDS.....	32
2.10 UTE NES 408 B—TEST INSTALLATIONS IN HAZARDOUS AREAS.....	35
2.11 UTE NES 409 B—CONDUCT CLOSE INSPECTION OF EXISTING HAZARDOUS AREAS INSTALLATIONS .....	37
2.12 UTE NES 410 B—CONDUCT DETAILED INSPECTION OF HAZARDOUS AREAS INSTALLATIONS .....	39
2.13 UTE NES 609 B—DEVELOP AND MANAGE MAINTENANCE PROGRAMS FOR HAZARDOUS AREAS ELECTRICAL EQUIPMENT .....	41
2.14 UTE NES 610 B—ENSURE THE SAFETY OF HAZARDOUS AREAS .....	44
2.15 UTE NES 705 B—DESIGN AND DEVELOP MODIFICATIONS TO EXPLOSION-PROTECTED EQUIPMENT .....	46
2.16 UTE NES 706 B—CLASSIFY HAZARDOUS AREAS .....	49
2.17 UTE NES 707 B—DESIGN ELECTRICAL INSTALLATIONS IN HAZARDOUS AREAS .....	51
2.18 UTE NES 708 B—DESIGN EXPLOSION-PROTECTED ELECTRICAL SYSTEMS .....	53
2.19 UTE NES 711 A—DESIGN GAS DETECTION SYSTEMS.....	55
SECTION 3 ESSENTIAL KNOWLEDGE AND ASSOCIATED SKILLS	
3.1 GENERAL.....	57
3.2 DESCRIPTION OF ESSENTIAL KNOWLEDGE AND ASSOCIATED SKILLS....	57
SECTION 4 ASSESSMENT	
4.1 GENERAL.....	70
4.2 SOURCES OF EVIDENCE .....	70
4.3 ASSESSMENT PROCESSES.....	71
