AS 1099.0-1996

Australian Standard[®]

**Basic environmental testing
procedures for electrotechnology**

**Part 0: Introduction and list of Parts
of AS 1099 and IEC 68**

This Australian Standard was prepared by Committee ET/5, Environmental Testing Procedures. It was approved on behalf of the Council of Standards Australia on 10 June 1994 and published on 15 August 1994.

The following interests are represented on Committee ET/5:

Aerospace Technologies of Australia
Australian Chamber of Commerce and Industry
Australian Electrical and Electronic Manufacturers Association
Department of Defence (Commonwealth)
Electricity Supply Association of Australia
National Association of Testing Authorities Australia
Society of Automotive Engineers of Australasia
Telecom Australia
University of New South Wales

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.
