

AS 1074—1989

Reconfirmed 2018

Australian Standard[®]

**Steel tubes and tubulars for
ordinary service**

This Australian Standard was prepared by Committee WS/4, Steel Pipes and Fittings–Water and Gas. It was approved on behalf of the Council of Standards Australia on 8 February 1989 and published on 10 April 1989.

The following interests are represented on Committee WS/4:

Confederation of Australian Industry
Metal Trades Industry Association of Australia
Public Works Department, New South Wales
The Australian Gas Association
Water Resources Commission, Queensland

Additional interests participating in preparation of Standard:

Water Authority of Western Australia

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.
