Australian/New Zealand Standard[®]

**Evaluation and routine testing
in medical imaging departments**

**Part 2.6: Constancy tests—
X-ray equipment for computed
tomography**

AS/NZS 4184.2.6:1995

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee HT/23, Medical Diagnostic Imaging Equipment. It was approved on behalf of the Council of Standards Australia on 31 July 1995 and on behalf of the Council of Standards New Zealand on 7 August 1995. It was published on 5 December 1995.

The following interests are represented on Committee HT/23:

Australasian College of Physical Scientists and Engineers in Medicine
Australian Academy of Dento-Maxillo-Facial Radiologists
Australian and New Zealand Society of Nuclear Medicine
Australian Chamber of Commerce and Industry
Australian Dental Association
Australian Dental Industry Association
Australian Institute of Radiography
Australian Radiation Laboratory
Department of Defence, Australia
Environment Protection Authority, N.S.W.
Health Department, W.A.
Ministry of Commerce, New Zealand
Public Works Department, N.S.W.
Queensland Health
Radiation Health Standing Committee
Royal Australasian College of Radiologists
South Australian Health Commission
United Dental Hospital of Sydney
University of Sydney
University of Waikato, New Zealand

Review of Standards. To keep abreast of progress in industry, Joint Australian/New Zealand Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Joint Standards and related publications will be found in the Standards Australia and Standards New Zealand Catalogue of Publications; this information is supplemented each month by the magazines 'The Australian Standard' and 'Standards New Zealand', which subscribing members receive, and which give details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Joint Standards, addressed to the head office of either Standards Australia or Standards New Zealand, are welcomed. Notification of any inaccuracy or ambiguity found in a Joint Australian/New Zealand Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 94263.

© Copyright — STANDARDS AUSTRALIA/STANDARDS NEW ZEALAND

Users of Standards are reminded that copyright subsists in all Standards Australia and Standards New Zealand publications and software. Except where the Copyright Act allows and except where provided for below no publications or software produced by Standards Australia or Standards New Zealand may be reproduced, stored in a retrieval system in any form or transmitted by any means without prior permission in writing from Standards Australia or Standards New Zealand. Permission may be conditional on an appropriate royalty payment. Australian requests for permission and information on commercial software royalties should be directed to the head office of Standards Australia. New Zealand requests should be directed to Standards New Zealand.

Up to 10 percent of the technical content pages of a Standard may be copied for use exclusively in-house by purchasers of the Standard without payment of a royalty or advice to Standards Australia or Standards New Zealand.

Inclusion of copyright material in computer software programs is also permitted without royalty payment provided such programs are used exclusively in-house by the creators of the programs.

Care should be taken to ensure that material used is from the current edition of the Standard and that it is updated whenever the Standard is amended or revised. The number and date of the Standard should therefore be clearly identified.

The use of material in print form or in computer software programs to be used commercially, with or without payment, or in commercial contracts is subject to the payment of a royalty. This policy may be varied by Standards Australia or Standards New Zealand at any time.

PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee HT/23 on Medical Diagnostic Imaging Equipment, as a Joint Standard.

This Standard is identical to and has been reproduced from IEC 1223-2-6:1994 *Evaluation and routine testing in medical imaging departments Part 2-6: Constancy tests—X-ray equipment for computed tomography*.

In the text of this Standard, the following print types are used:

- (i) Terms used throughout the Standard, which have been defined in Clause 3 and which are also in the annex IN SMALL CAPITALS
- (ii) Marginal bars are added to the text wherever the requirements of the Standard have been varied to meet Australian and New Zealand requirements, these variations are detailed in Appendix ZZ.
- * An asterisk is placed before each Clause for which rationale is included in Annex D.

Under arrangements made between Standards Australia/Standards New Zealand and the IEC, as well as certain other Standards organizations, users of this Standard are advised that the number of this Standard is not reproduced on each page; its identity is shown only on the cover.

For the purpose of this Standard, the IEC text should be modified as follows:

- (a) *Terminology* The words ‘this Australian/New Zealand Standard’ should replace the words ‘this International Standard’ wherever they appear.
- (b) *Decimal marker* Substitute a full point for a comma where it appears as a decimal marker.
- (c) *References* The references to international Standards should be replaced by references to the following Australian or Joint Australian/New Zealand Standards:

<i>Reference to International Standard or other publication</i>		<i>Australian/New Zealand Standard</i>	
IEC		AS/NZS	
788	Medical radiology—Terminology	—	
1223	Evaluation and routine testing in medical imaging departments	4184	Evaluation and routine testing in medical imaging departments
1223-1	Part 1: General aspects	4184.1	Part 1: General aspects
1223-2-1	Part 2-1: Constancy tests—Film processors	4184.2.1	Part 2.1: Constancy tests—Film processors
1223-2-2	Part 2-2: Constancy tests—Radiographic cassettes and film changers—Film-screen contact and relative sensitivity of the screen-cassette assembly	4184.2.2	Part 2.2: Constancy tests—Radiographic cassettes and film changers—Film-screen contact and relative sensitivity of the screen-cassette assembly
1223-2-3	Part 2-3: Constancy tests—Dark-room safelight conditions	4184.2.3	Part 2.3: Constancy tests—Dark-room safelight conditions

The terms ‘normative’ and ‘informative’ have been used in this Standard to define the application of the appendix and annexes to which they apply. A ‘normative’ appendix/annex is an integral part of a Standard, whereas an ‘informative’ appendix is only for information and guidance.

CONTENTS

	<i>Page</i>
1	Scope and object 1
1.1	Scope 1
1.2	Object 1
2	Normative references 2
3	Terminology 2
3.1	Degree of requirements 2
3.2	Use of terms 3
3.3	Definitions 3
4	General aspects of CONSTANCY TESTS 4
4.1	General conditions affecting test procedures 5
4.2	Establishment of BASELINE VALUES 5
4.3	Frequency of CONSTANCY TESTS 6
4.4	Identification of equipment, instrumentation and test conditions 6
4.5	Measured functional parameters 7
5	Test methods 7
5.1	NOISE, MEAN CT NUMBERS AND UNIFORMITY 7
5.2	SPATIAL RESOLUTION 8
5.3	SLICE THICKNESS 10
5.4	Dose 11
5.5	Positioning of the PATIENT SUPPORT 13
6	Statement of compliance 14
Annexes	
A	Terminology — Index of terms 15
B	Example of a form for the standardized test report 17
C	Guidance on action to be taken 19
D	Rationale 20
