## **AS/NZS 4761.3(Int):2000**

---

This Interim Joint Australian/New Zealand Standard was prepared by Joint Technical Committee P/12, EEHA Competency Standards Advisory Panel. It was approved on behalf of the Council of Standards Australia on 18 May 2000 and on behalf of the Council of Standards New Zealand on 15 May 2000. It was published on 8 June 2000.

---

The following interests are represented on Committee P/12:

Auckland Regional Chamber of Commerce  
Australian Association of Certification Bodies  
Australian Chamber of Commerce and Industry  
Australian Coal Association  
Australian Electrical and Electronic Manufacturers Association  
Australian Industry Group  
Australian Institute of Petroleum  
Australasian Society of Engineers in Mining  
Department of Infrastructure, Energy and Resources (Tas)  
Department of Mineral Resources N.S.W.  
Department of Mines and Energy (Qld)  
Electricity Supply Association of Australia  
Electrotechnology – Industry Training Organization (NZ)  
Institute of Electrical Inspectors  
Institute of Instrumentation and Control Australia  
Institution of Engineers, Australia  
Ministry of Commerce NZ  
National Utilities and Electrotechnology Industry Training Advisory Body  
New South Wales Grain Corporation Limited  
New Zealand Hazardous Areas Electrical Coordinating Committee  
TAFE New South Wales  
The Royal Australian Chemical Institute  
TestSafe Australia

### **Keeping Standards up-to-date**

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Australia web site at [www.standards.com.au](http://www.standards.com.au) or Standards New Zealand web site at [www.standards.co.nz](http://www.standards.co.nz) and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia International or Standards New Zealand at the address shown on the back cover.

## PREFACE

This Interim Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee P/12, EEHA—Competency Standards Advisory Panel.

This Interim Standard is partially based on publication CS-EEHA-001—1998, *Competency Standard—Electrical Equipment in Hazardous Areas*, which has been developed through the National Utilities and Electrotechnology Industry Training Advisory Body Limited (NUEITAB) with support from the Australian National Training Authority (ANTA).

An equivalent set of competency (unit) Standards has been formatted for the New Zealand Qualifications Framework by the ElectroTechnology Industry Training Organization (ETITO), and endorsed by the Joint Committee P/12. The Unit Standards are registered with the New Zealand Qualifications Authority (NZQA), under the domain *Electrical Equipment for Hazardous Areas*.

The objective of this Interim Standard is to outline the relevant details of the ‘curriculum modules’ and ‘work performance modules’ that support the training/learning structure set out in Section 3 of AS/NZS 4761.2(Int).

Committee P/12 has decided to issue this series of Standards as Interim Joint Australian/New Zealand Standards to avoid further delays in the availability of information to users and to allow urgently needed implementation throughout the industry. Organizations are encouraged to provide feedback to the Committee based on their experiences during such implementation.

These Units of Competency are a replica of those included in the NUEITAB National Electrotechnology Training Package, endorsed by the National Training Framework Committee (ANTA’s endorsing body). To ensure consistency and concurrence between the two sets of documents (this series of Interim Standards and the National Electrotechnology Training Package) maintenance and revision of these documents will be carried out simultaneously through the established Joint Standards Committee P/12, EEHA Competency Standards Advisory Panel, and amendments thereto processed in accordance with the respective organizational requirements.

This Interim Standard forms part of a series covering the competencies for working with electrical equipment for hazardous areas, and all the training materials/components supporting such competencies.

The series is as follows:

AS/NZS

- |             |   |
|-------------|---|
| 4761        | Competencies for working with electrical equipment for hazardous areas (EEHA) |
| 4761.1(Int) | Part 1: Units of Competency   |
| 4761.2(Int) | Part 2: Requirements for a structured program to develop competency           |
| 4761.3(Int) | Part 3: Modules supporting training (this Standard)                           |
| 4761.4(Int) | Part 4: Assessing competency  |

Standards Australia/Standards New Zealand invites comment on this Interim Standard from persons and organizations concerned with this subject. The date of expiry is two years after publication, at which time this Interim Standard will be confirmed, withdrawn or revised in the light of public comment. The closing date for comment is 18 months after publication at which time the Committee will either consider its withdrawal at the end of its two years life or revise it in the light of public comment, with the view to the publication of a Joint Australian/New Zealand Standard before the expiry date.

During the life of this document the Committee will monitor all comment as it is received.

Attention is drawn to the fact that this document is an Interim Joint Australian/New Zealand Standard only and should be regarded as a developmental Standard and liable to future alteration.

## CONTENTS

	<i>Page</i>
FOREWORD .....	4
 SECTION 1 SCOPE AND GENERAL	
1.1 SCOPE.....	6
1.2 APPLICATION.....	6
1.3 REFERENCED DOCUMENTS .....	6
1.4 DEFINITIONS .....	6
 SECTION 2 CURRICULUM MODULES	
2.1 GENERAL.....	7
2.2 MODULE INFORMATION .....	7
2.3 CONTENT OF MODULES .....	8
2.4 ASSESSMENT STRATEGY .....	22
2.5 TRAINING DELIVERY .....	22
 SECTION 3 WORK PERFORMANCE MODULES	
3.1 GENERAL.....	23
3.2 MODULE INFORMATION .....	23
3.3 CONTENT OF MODULES .....	24
3.4 ASSESSMENT STRATEGY .....	30
