

AS 2735—1984

Australian Standard[®]

DRY-TYPE POWER TRANSFORMERS

[Title allocated by Defence Cataloguing Authority:
TRANSFORMER, POWER, (Dry-Type) NSC 6120]

This Australian standard was prepared by Committee EL/8, Static Electrical Machinery. It was approved on behalf of the Council of the Standards Association of Australia on 31 July 1984 and published on 9 November 1984.

The following interests are represented on Committee EL/8:

Australian-British Trade Association
Australian Electrical and Electronic Manufacturers Association Ltd
Confederation of Australian Industry
Defence Standardization Committee
Electrical Testing Laboratories
Electricity Supply Association of Australia
Electricity Supply Engineers Association of New South Wales
Institution of Engineers, Australia
Railways of Australia Committee

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This standard was issued in draft form for comment as DR 83196.
