Electricity Supply Association of Australia  
Institute of Draftsmen, Australia  
Institution of Radio and Electronics Engineers, Australia  
Melbourne & Metropolitan Board of Works  
Queensland Chamber of Mines  
Railways of Australia Committee  
Royal Melbourne Institute of Technology  
Telecom Australia  
The technical press

---

**Review of Australian Standards.** To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up-to-date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.
