Australian and New Zealand Environment and Conservation Council

AUSTROADS

Bureau of Steel Manufacturers of Australia

Council of The City of Sydney

CSIRO—Division of Building, Construction & Engineering

Department of Defence

Ministry of Health, New Zealand

National Acoustic Laboratories

Royal Australian Institute of Architects

Royal Australian Planning Institute

The Institute of Marine Engineers Australia/New Zealand Division

University of Sydney

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 95366.
