

AS 3791—1991

Australian Standard[®]

Hydraulic hose

This Australian Standard was prepared by Committee RU/1, Industrial Hose. It was approved on behalf of the Council of Standards Australia on 6 June 1990 and published on 11 February 1991.

The following interests are represented on Committee RU/1:

Australian Gas Association
Australian Institute of Petroleum
Confederation of Australian Industry
Department of Administrative Services, N.S.W.
Department of Minerals and Energy, N.S.W.
Plastics and Rubber Institute
Plastics Industry Association
Railways of Australia Committee
Water Board, Sydney

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 89146.

PREFACE

This Standard was prepared by the Standards Australia Committee on Industrial Hose under the direction of Committee RU/—Standards for the Rubber Industry, to supersede AS B226—1972, *Hydraulic hose*.

This edition is based on the Society of Automotive Engineers (SAE) Standard J517—Jun 1987, *Hydraulic hose* and includes seven new classes of hose which did not appear in the previous edition. Suitable test procedures from SAE J343—Jun 1987, *Tests and procedures for SAE 100R series hydraulic hose and hose assemblies* have been incorporated.

Values are indicated in both imperial and SI units. This reflects the status of mandrel sizes and fittings currently in use in industry.

© Copyright — STANDARDS AUSTRALIA

Users of Standards are reminded that copyright subsists in all Standards Australia publications and software. Except where the Copyright Act allows and except where provided for below no publications or software produced by Standards Australia may be reproduced, stored in a retrieval system in any form or transmitted by any means without prior permission in writing from Standards Australia. Permission may be conditional on an appropriate royalty payment. Requests for permission and information on commercial software royalties should be directed to the head office of Standards Australia.

Standards Australia will permit up to 10 percent of the technical content pages of a Standard to be copied for use exclusively in-house by purchasers of the Standard without payment of a royalty or advice to Standards Australia.

Standards Australia will also permit the inclusion of its copyright material in computer software programs for no royalty payment provided such programs are used exclusively in-house by the creators of the programs.

Care should be taken to ensure that material used is from the current edition of the Standard and that it is updated whenever the Standard is amended or revised. The number and date of the Standard should therefore be clearly identified.

The use of material in print form or in computer software programs to be used commercially, with or without payment, or in commercial contracts is subject to the payment of a royalty. This policy may be varied by Standards Australia at any time.

	<i>Page</i>
SECTION 1 SCOPE AND GENERAL	
1.1 SCOPE	4
1.2 REFERENCED DOCUMENTS	4
1.3 CLASSIFICATION	4
1.4 VISUAL EXAMINATION	4
1.5 CONSIDERATIONS RELATING TO HOSE USAGE	4
1.6 MARKING	4
SECTION 2 CONSTRUCTION, DIMENSIONS, PROPERTIES AND TEST REQUIREMENTS	
2.1 STEEL WIRE-REINFORCED RUBBER-COVERED HYDRAULIC HOSE (100 R1)	6
2.2 HIGH PRESSURE, STEEL WIRE-REINFORCED, RUBBER-COVERED HYDRAULIC HOSE (100R2)	7
2.3 DOUBLE (NON-METALLIC) FIBRE BRAID REINFORCED, RUBBER-COVERED HYDRAULIC HOSE (100R3)	9
2.4 WIRE-INSERTED HYDRAULIC SUCTION HOSE (100R4)	10
2.5 SINGLE WIRE BRAID REINFORCED, TEXTILE-COVERED HYDRAULIC HOSE (100R5)	11
2.6 SINGLE (NON-METALLIC) FIBRE BRAID REINFORCED, RUBBER-COVERED HYDRAULIC HOSE (100R6)	13
2.7 THERMOPLASTIC, SYNTHETIC FIBRE-REINFORCED, HYDRAULIC HOSE (100R7)	14
2.8 HIGH PRESSURE, THERMOPLASTIC HYDRAULIC HOSE (100R8)	15
2.9 HIGH PRESSURE, 4-SPIRAL STEEL WIRE-REINFORCED, RUBBER-COVERED HYDRAULIC HOSE (100R9)	16
2.10 HEAVY DUTY, 4-SPIRAL STEEL WIRE-REINFORCED, RUBBER-COVERED HYDRAULIC HOSE (100R10)	18
2.11 HEAVY DUTY, 6-SPIRAL STEEL WIRE-REINFORCED, RUBBER-COVERED HYDRAULIC HOSE (100R11)	19
2.12 HEAVY DUTY, HIGH-IMPULSE, 4-SPIRAL WIRE-REINFORCED, RUBBER-COVERED HYDRAULIC HOSE (100R12)	21
2.13 HEAVY DUTY, HIGH-IMPULSE, MULTIPLE SPIRAL WIRE-REINFORCED, RUBBER-COVERED HYDRAULIC HOSE (100R13)	22
2.14 POLYTETRAFLUOROETHYLENE-(PTFE-)LINED HYDRAULIC HOSE (100R14)	23
