Australian/New Zealand Standard

**Information technology—Font
information interchange**

Part 1: Architecture

AS/NZS 4159.1:1994

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee IT/1, Information Systems—Interconnection. It was approved on behalf of the Council of Standards Australia on 12 October 1993 and on behalf of the Council of Standards New Zealand on 22 April 1993. It was published on 21 March 1994.

The following interests are represented on Committee IT/1:

Australian Association of Permanent Building Societies
Australian Bankers Association
Australian Bureau of Statistics
Australian Chamber of Commerce and Industry
Australian Committee of Directors and Principals
Australian Computer Society
Australian Computer Users Association
Australian Information Industry Association
Australian Telecommunications Users Group
Australian Vice Chancellors Committee
Department of Defence, Australia
Department of Industry, Technology and Commerce, Australia
Information Exchange Steering Committee, Australia
Institute of Information and Communication Technologies, CSIRO, Australia
Life Insurance Federation of Australia
OPTUS Communications, Australia
Telecom Australia

Review of Standards. To keep abreast of progress in industry, Joint Australian/New Zealand Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Joint Standards and related publications will be found in the Standards Australia and Standards New Zealand Catalogue of Publications; this information is supplemented each month by the magazines 'The Australian Standard' and 'Standards New Zealand', which subscribing members receive, and which give details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Joint Standards, addressed to the head office of either Standards Australia or Standards New Zealand, are welcomed. Notification of any inaccuracy or ambiguity found in a Joint Australian/New Zealand Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

PREFACE

This Standard was prepared by the Joint Australia/New Zealand Standards Committee IT/1, on Information Systems—Interconnection. It is identical with, and has been reproduced from, ISO/IEC 9541-1:1991, *Information technology—Font information interchange, Part 1: Architecture*.

Technical Corrigendum 1:1992, is bound at the rear of this Standard. Text affected is marked by a marginal bar.

This Joint Standard is one of a series of Open Systems Interconnection (OSI) Standards which are currently under development. Since OSI Standards are developmental, there may be some minor difficulties encountered in their implementation. For this reason, Standards Australia will be providing, through the OSI Help Desk, a service to coordinate and disseminate information concerning difficulties which are identified in using this Joint Standard.

Under arrangements made between Standards Australia/Standards New Zealand and the international Standards bodies, ISO and IEC, as well as certain other Standards organizations, users of this Joint Standard are advised of the following:

- (a) In Australia, copyright is vested in Standards Australia. In New Zealand, copyright is vested in Standards New Zealand.
- (b) The number of this Joint Standard is not reproduced on each page; its identity is shown only on the cover and title pages.

For the purpose of this Joint Standard, the ISO/IEC text should be modified as follows:

- (i) *Terminology* The words ‘Australian Standard’, ‘New Zealand Standard’ or ‘Joint Australian/New Zealand Standard’ should replace the words ‘International Standard’ wherever they appear.
- (ii) *References* The references to International Standards should be replaced by references to the following Australian/New Zealand Standards:

<i>Reference to International Standard or other Publication</i>	<i>Australian/New Zealand Standard</i>

© Copyright — STANDARDS AUSTRALIA/STANDARDS NEW ZEALAND

Users of Standards are reminded that copyright subsists in all Standards Australia and Standards New Zealand publications and software. Except where the Copyright Act allows and except where provided for below no publications or software produced by Standards Australia or Standards New Zealand may be reproduced, stored in a retrieval system in any form or transmitted by any means without prior permission in writing from Standards Australia or Standards New Zealand. Permission may be conditional on an appropriate royalty payment. Australian requests for permission and information on commercial software royalties should be directed to the head office of Standards Australia. New Zealand requests should be directed to Standards New Zealand.

Up to 10 percent of the technical content pages of a Standard may be copied for use exclusively in-house by purchasers of the Standard without payment of a royalty or advice to Standards Australia or Standards New Zealand.

Inclusion of copyright material in computer software programs is also permitted without royalty payment provided such programs are used exclusively in-house by the creators of the programs.

Care should be taken to ensure that material used is from the current edition of the Standard and that it is updated whenever the Standard is amended or revised. The number and date of the Standard should therefore be clearly identified.

The use of material in print form or in computer software programs to be used commercially, with or without payment, or in commercial contracts is subject to the payment of a royalty. This policy may be varied by Standards Australia or Standards New Zealand at any time.
