

# **Document management—Engineering document format using PDF**

## **Part 1: Use of PDF 1.6 (PDF/E-1)**

This Australian Standard® was prepared by Committee IT-021, Records and Document Management Systems. It was approved on behalf of the Council of Standards Australia on 20 March 2017.

This Standard was published on 27 April 2017.

---

The following are represented on Committee IT-021:

- AMS Imaging
  - Australian Computer Society
  - Australian Industry Group
  - Australian Society of Archivists
  - City of Boroondara
  - Department of Defence (Australian Government)
  - Monash University
  - National Archives of Australia
  - Public Record Office Victoria
  - Queensland State Archives
  - Records and Information Management Professionals Australasia
  - State Archives and Records Authority of New South Wales
  - State Records Office of Western Australia
  - University of Sydney
- 

This Standard was issued in draft form for comment as DR AS ISO 24517.1:2017.

Standards Australia wishes to acknowledge the participation of the expert individuals that contributed to the development of this Standard through their representation on the Committee and through the public comment period.

---

### **Keeping Standards up-to-date**

Australian Standards® are living documents that reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued.

Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments that may have been published since the Standard was published.

Detailed information about Australian Standards, drafts, amendments and new projects can be found by visiting [www.standards.org.au](http://www.standards.org.au)

Standards Australia welcomes suggestions for improvements, and encourages readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at [mail@standards.org.au](mailto:mail@standards.org.au), or write to Standards Australia, GPO Box 476, Sydney, NSW 2001.

## PREFACE

This Standard was prepared by the Standards Australia Committee IT-021, Records and Document Management Systems.

The objective of this Standard is specify the use of the portable document format (PDF) Version 1.6 for electronic documents used in engineering workflows.

This Standard is identical with, and has been reproduced from ISO 24517-1:2008, *Document management—Engineering document format using PDF, Part 1: Use of PDF 1.6 (PDF/E-1)*.

As this Standard is reproduced from an International Standard, the following applies:

- (a) In the source text ‘this part of ISO 24517’ should read ‘this Australian Standard’.
- (b) A full point substitutes for a comma when referring to a decimal marker.

None of the normative references in the source document have been adopted as Australian or Australian/New Zealand Standards.

The term ‘informative’ has been used in this Standard to define the application of the annex to which it applies. An ‘informative’ annex is only for information and guidance.

## CONTENTS

1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	2
4	Notations .....	3
5	PDF/E-1 conforming files and readers .....	3
6	Syntax .....	4
6.1	File header.....	4
6.2	File trailer.....	4
6.3	Document ID .....	4
6.4	Cross-reference tables and cross-reference streams .....	4
6.5	Document information dictionary .....	4
6.6	String objects.....	4
6.7	Stream objects .....	4
6.8	Linearized PDF.....	5
6.9	Implementation limits.....	5
7	Graphics .....	5
7.1	General .....	5
7.2	Output intent .....	5
7.3	Colour spaces .....	5
7.4	Images .....	7
7.5	Form XObjects .....	7
7.6	Reference XObjects.....	7
7.7	PostScript XObjects .....	7
7.8	Shading operator.....	7
7.9	Extended graphics state .....	7
7.10	Rendering intents .....	7
7.11	Content streams .....	8
7.12	Optional content .....	8
7.13	Print scaling .....	8
8	Fonts .....	8
8.1	General .....	8
8.2	Font types.....	9
8.3	Composite fonts .....	9
8.4	Embedded font programs .....	9
8.5	Font subsets .....	10
8.6	Character encodings.....	10
9	Annotations.....	10
9.1	General .....	10
9.2	Annotation types .....	11
9.3	Annotation dictionaries .....	11
10	Interactive forms.....	11
11	Actions.....	11
11.1	General .....	11
11.2	Hypertext links.....	12
