

AS 3653—1993

Australian Standard[®]

**Boilers—Safety, management,
combustion and other ancillary
equipment**

This Australian Standard was prepared by Committee ME/1, Boilers and Pressure Vessels. It was approved on behalf of the Council of Standards Australia on 7 July 1993 and published on 13 September 1993.

The following interests are represented on Committee ME/1:

A.C.T. Occupational Health and Safety Office
Aluminium Development Council
Australian Chamber of Commerce and Industry
Australian Compressed Air and Mining Equipment Institute
Australian Institute for Non-destructive Testing
Australian Institute of Energy
Australian Institute of Petroleum
Australian Liquefied Petroleum Gas Association
Australian Pipeline Industry Association
Australian Sugar Milling Council
Australian Valve Manufacturers Association
Boiler and Pressure Vessel Manufacturers Association of Australia
Bureau of Steel Manufacturers of Australia
Department of Defence
Department of Employment, Industrial Relations and Training, Tas.
Department of Employment, Vocational Training and Industrial Relations, Qld
Department of Labour, S.A.
Department of Occupational Health, Safety and Welfare, W.A.
Electricity Supply Association of Australia
Institute of Metals and Materials Australasia
Institution of Engineers Australia
Insurance Council of Australia
Metal Trades Industry Association of Australia
National Association of Testing Authorities Australia
Occupational Health and Safety Authority, Vic.
Railways of Australia Committee
Welding Technology Institute of Australia
Work Health Authority, N.T.
WorkCover Authority, N.S.W.

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 92052.

PREFACE

This Standard was prepared by the Standards Australia Committee on boilers and pressure vessels.

The Standard consolidates, rationalizes and extends the present requirements and recommendations for boiler ancillaries in AS 1228—*Boilers—Water-tube*; AS 1797, *Boilers—Fire-tube, shell and miscellaneous*; AS 2593, *Boilers—Unattended and limited attendance* and associated Standards. It is part of a major program to restructure, unify and simplify the various Standards for particular types of equipment and components which form the *SAA Boiler Code* (AS 1200). AS 1200 is referred to in Statutory Regulations in Australia and covers requirements for land installations of boilers, pressure vessels, piping and associated matters.

On publication of this Standard, AS 1228 and AS 1797 will be amended to delete the common requirements now covered herein and replace them by appropriate cross-references to this Standard.

Users of this Standard are reminded that it has no legal authority in its own right, but may acquire legal standing if adopted by government or other authority having jurisdiction, or if specified as part of a commercial contract.

© Copyright — STANDARDS AUSTRALIA

Users of Standards are reminded that copyright subsists in all Standards Australia publications and software. Except where the Copyright Act allows and except where provided for below no publications or software produced by Standards Australia may be reproduced, stored in a retrieval system in any form or transmitted by any means without prior permission in writing from Standards Australia. Permission may be conditional on an appropriate royalty payment. Requests for permission and information on commercial software royalties should be directed to the head office of Standards Australia.

Standards Australia will permit up to 10 percent of the technical content pages of a Standard to be copied for use exclusively in-house by purchasers of the Standard without payment of a royalty or advice to Standards Australia.

Standards Australia will also permit the inclusion of its copyright material in computer software programs for no royalty payment provided such programs are used exclusively in-house by the creators of the programs.

Care should be taken to ensure that material used is from the current edition of the Standard and that it is updated whenever the Standard is amended or revised. The number and date of the Standard should therefore be clearly identified.

The use of material in print form or in computer software programs to be used commercially, with or without payment, or in commercial contracts is subject to the payment of a royalty. This policy may be varied by Standards Australia at any time.

CONTENTS

	<i>Page</i>
SECTION 1 SCOPE AND GENERAL	
1.1 SCOPE	5
1.2 APPLICATION	5
1.3 REFERENCED DOCUMENTS	5
1.4 DEFINITIONS	5
1.5 IMPLEMENTATION	5
SECTION 2 GENERAL VALVES, GAUGES AND OTHER FITTINGS	
2.1 GENERAL REQUIREMENTS	6
2.2 STOP AND ISOLATING VALVES	9
2.3 BLOWDOWN AND DRAIN FACILITIES	9
2.4 PRESSURE GAUGES	10
SECTION 3 SAFETY VALVES	
3.1 SIZE, NUMBER AND LOCATION OF VALVES	11
3.2 DISCHARGE CAPACITY	11
3.3 ACCUMULATION	12
3.4 RESEATING PRESSURE	12
3.5 DISCHARGE TESTS AND SAFETY VALVES	13
3.6 TYPE AND MINIMUM SIZE OF VALVES	13
3.7 VALVE SETTINGS	13
3.8 CONNECTIONS TO SHELL	13
3.9 EXPANSION JOINTS	14
3.10 PILOT PIPES	14
3.11 SAFETY VALVE DISCHARGE SYSTEM	14
3.12 DISCHARGE RESTRICTION	14
SECTION 4 WATER LEVEL MANAGEMENT AND SECURITY	
4.1 WATER LEVEL DEVICES AND INTERLOCKS	15
4.2 WATER LEVEL INDICATORS	16
4.3 FEED SYSTEMS	20
SECTION 5 BOILER MANAGEMENT SYSTEMS	
5.1 GENERAL	22
5.2 MANUAL OPERATION	22
5.3 AUTOMATIC OPERATION	22
5.4 UNATTENDED AND LIMITED ATTENDANCE OPERATION	22
5.5 PLC MANAGEMENT SYSTEMS	22
5.6 ELECTRICAL EQUIPMENT	23
5.7 NOTICES	24
SECTION 6 ENERGY INPUT SYSTEMS	
6.1 COMBUSTION SYSTEMS	25
6.2 WASTE HEAT ENERGY RECOVERY SYSTEM	26
6.3 ELECTRIC ENERGY INPUT SYSTEMS	26
