# Australian Standard™

Lifts, escalators and moving walks

Part 1: General requirements

This Australian Standard was prepared by Committee ME-004, Lift Installations. It was approved on behalf of the Council of Standards Australia on 5 October 2001 and published on 4 December 2001.

The following interests are represented on Committee ME-004:

Association of Consulting Engineers Australia

Association of Independent Lift Companies

Australian Building Codes Board

Australian Chamber of Commerce and Industry

Australian Elevator Association

Australian Industry Group

Department for Administrative and Information Services (SA)

Department of Employment Training and Industrial Relations (Qld)

Department of Industries and Business NT

Department of Infrastructure, Energy and Resources (Tas)

Institution of Engineers Australia

New Zealand Lift and Escalator Association

NSW Department of Public Works and Services

Property Council of Australia

Victorian WorkCover Authority

WorkCover New South Wales

WorkSafe Western Australia

#### **Keeping Standards up-to-date**

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about Standards can be found by visiting the Standards Australia web site at <a href="https://www.standards.com.au">www.standards.com.au</a> and looking up the relevant Standard in the on-line catalogue.

Alternatively, the printed Catalogue provides information current at 1 January each year, and the monthly magazine, *The Australian Standard*, has a full listing of revisions and amendments published each month.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at mail@standards.com.au, or write to the Chief Executive, Standards Australia International Ltd, GPO Box 5420, Sydney, NSW 2001.

AS 1735.1-2001

## Australian Standard™

## Lifts, escalators and moving walks

## Part 1: General requirements

Originated as AS CA3—1935. Previous edition 1986. Fifth edition 2001.

#### PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee ME-004, Lift Installations, to supersede AS 1735.1—1999.

This Standard is the result of a consensus among Australian and New Zealand representatives on the Joint Committee to produce it as an Australian Standard.

The objective of this Standard is to provide general requirements, including definitions of terms, relevant to various Parts of the AS 1735 series.

Statements expressed in mandatory terms in notes to tables are deemed to be requirements of this Standard.

The major change in this edition is the inclusion of an Appendix that sets out variations to BS EN81-1 for its acceptance in Australia as an alternative to AS 1735.2.

The AS 1735 series consist of the following parts:

AS 1735.1	Part 1:	General requirements		
AS 1735.2	Part 2:	Passenger and goods lifts—Electric		
AS 1735.3	Part 3:	Passenger and goods lifts—Electrohydraulic		
AS 1735.4	Part 4:	Service lifts—Power-operated		
AS 1735.5	Part 5:	Escalators and moving walks		
AS 1735.7	Part 7:	Stairway lifts		
AS 1735.8	Part 8:	Inclined lifts		
AS 1735.9	Part 9:	Special purpose industrial lifts		
AS 1735.10(Int)	Part 10(Int):	Tests		
AS 1735.11	Part 11:	Fire-rated landing doors		
AS 1735.12	Part 12:	Facilities for persons with disabilities		
AS 1735.13	Part 13:	Lifts for persons with limited mobility—Manually powered		
AS 1735.14	Part 14:	Low-rise platforms for passengers		
AS 1735.15	Part 15:	Lifts for people with limited mobility—Restricted use—Non-automatically controlled		
AS 1735.16	Part 16:	Lifts for people with limited mobility—Restricted use—Automatically controlled		
AS 1735.17	Part 17:	Lifts for people with limited mobility—Restricted use—Water-drive		

The term 'normative' has been used in this Standard to define the application of the appendix to which it applies. A 'normative' appendix is an integral part of a Standard.
