

AS/NZS 2243.1:1997

Australian/New Zealand Standard[®]

Safety in laboratories

Part 1: General

AS/NZS 2243.1:1997

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee CH/26, Safety in Laboratories. It was approved on behalf of the Council of Standards Australia on 29 November 1996 and on behalf of the Council of Standards New Zealand on 29 November 1996. It was published on 5 January 1997.

The following interests are represented on Committee CH/26:

Agriculture Victoria
Australian Government Analytical Laboratories
Commonwealth Scientific and Industrial Research Organisation
Department of Defence, Australia
Department of Labour, New Zealand
ESR Health, New Zealand
Ministry of Commerce, New Zealand
National Association of Testing Authorities, Australia
New Zealand Chemical Industry Council
New Zealand Microbiological Society
Plastics and Chemicals Industry Association
Victorian WorkCover Authority
WorkCover Authority of N.S.W.

Additional interests participating in preparation of Standard:

Consultant physicists
Monash University
University of Melbourne
University of Queensland

Review of Standards. To keep abreast of progress in industry, Joint Australian/New Zealand Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Joint Standards and related publications will be found in the Standards Australia and Standards New Zealand Catalogue of Publications; this information is supplemented each month by the magazines 'The Australian Standard' and 'Standards New Zealand', which subscribing members receive, and which give details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Joint Standards, addressed to the head office of either Standards Australia or Standards New Zealand, are welcomed. Notification of any inaccuracy or ambiguity found in a Joint Australian/New Zealand Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee, CH/26, on Safety in Laboratories, to supersede AS 2243.1—1990.

The objective of this Standard is to provide general information, recommendations and procedures which will promote safe working in laboratories.

This edition has been rewritten to take account of the publication of AS 2982—1996, *Laboratory construction* and also includes clauses on assessment of risk as applied to laboratory safety.

The Standard comprises Part 1 of a 10-part series designed to provide basic coverage of all important aspects of the safety function in laboratories. It deals with the general aspects of safety common to all kinds of laboratories and is intended to be used in conjunction with other Parts of the series, which relate to particular aspects of laboratory operations and to particular kinds of hazards. It stresses the importance of preventive measures and sets out the organization of safety techniques, emergency procedures, and first aid.

The other Parts in the series are as follows:

- Part 2: Chemical aspects
- Part 3: Microbiology
- Part 4: Ionizing radiations
- Part 5: Non-ionizing radiations
- Part 6: Mechanical aspects
- Part 7: Electrical aspects
- Part 8: Fume cupboards
- Part 9: Recirculating fume cabinets
- Part 10: Storage of chemicals

The terms 'normative' and 'informative' have been used in this Standard to define the application of the appendix to which they apply. A 'normative' appendix is an integral part of a Standard, whereas an 'informative' appendix is only for information and guidance.

© Copyright — STANDARDS AUSTRALIA/STANDARDS NEW ZEALAND

Users of Standards are reminded that copyright subsists in all Standards Australia and Standards New Zealand publications and software. Except where the Copyright Act allows and except where provided for below no publications or software produced by Standards Australia or Standards New Zealand may be reproduced, stored in a retrieval system in any form or transmitted by any means without prior permission in writing from Standards Australia or Standards New Zealand. Permission may be conditional on an appropriate royalty payment. Australian requests for permission and information on commercial software royalties should be directed to the head office of Standards Australia. New Zealand requests should be directed to Standards New Zealand.

Up to 10 percent of the technical content pages of a Standard may be copied for use exclusively in-house by purchasers of the Standard without payment of a royalty or advice to Standards Australia or Standards New Zealand.

Inclusion of copyright material in computer software programs is also permitted without royalty payment provided such programs are used exclusively in-house by the creators of the programs.

Care should be taken to ensure that material used is from the current edition of the Standard and that it is updated whenever the Standard is amended or revised. The number and date of the Standard should therefore be clearly identified.

The use of material in print form or in computer software programs to be used commercially, with or without payment, or in commercial contracts is subject to the payment of a royalty. This policy may be varied by Standards Australia or Standards New Zealand at any time.

CONTENTS

	<i>Page</i>
FOREWORD	4
 SECTION 1 SCOPE AND GENERAL	
1.1 SCOPE	5
1.2 APPLICATION	5
1.3 REFERENCED AND RELATED DOCUMENTS	5
1.4 DEFINITIONS	5
 SECTION 2 PLANNING THE LABORATORY FOR SAFETY	
2.1 CONSTRUCTION AND DESIGN	8
2.2 FIRE DETECTION AND EXPLOSION PROTECTION	10
2.3 EMERGENCY ALARM SYSTEMS AND ASSOCIATED OPERATIONS	10
2.4 INFORMATION ON HAZARDOUS SUBSTANCES	11
2.5 SAFETY INSPECTIONS	11
2.6 SAFETY EQUIPMENT	11
2.7 STORAGE OF HAZARDOUS SUBSTANCES	12
2.8 VENTILATION	12
2.9 ELECTRICAL INSTALLATIONS	13
 SECTION 3 RESPONSIBILITY FOR LABORATORY SAFETY AND EMERGENCY PROCEDURES	
3.1 RESPONSIBILITY FOR SAFETY	14
3.2 FIRE, EMERGENCY AND RESCUE PROCEDURES	16
3.3 FIRST AID	17
 SECTION 4 GENERAL SAFETY PROCEDURES	
4.1 RECOMMENDATIONS FOR SAFE CONDUCT	18
4.2 USE OF PERSONAL PROTECTIVE EQUIPMENT	19
4.3 CONTAINERS FOR HAZARDOUS MATERIALS	20
4.4 USE OF FUME CUPBOARDS	21
4.5 GENERAL LABORATORY PRACTICES	22
4.6 OPERATION OF INSTRUMENTS	24
4.7 OPERATIONS UNDER VACUUM	24
4.8 OPERATIONS UNDER INTERNAL PRESSURE	26
4.9 MICROWAVE DIGESTIONS	26
4.10 HANDLING OF LABORATORY WASTES	26
 APPENDICES	
A LIST OF REFERENCED AND RELATED DOCUMENTS	28
B HAZARDOUS AREAS NEEDING AUTOMATIC FIRE DETECTION OR PROTECTION DEVICES	32
C TYPICAL WORK INJURY REPORT	33
D HIGH RISK HAZARDS	35
