

Australian Standard[®]

**Non-destructive testing—Ultrasonic
testing of fusion welded joints in carbon
and low alloy steel**

This Australian Standard® was prepared by Committee MT-007, Non-destructive Testing of Metals and Materials. It was approved on behalf of the Council of Standards Australia on 10 May 2007.

This Standard was published on 12 July 2007.

The following are represented on Committee MT-007:

- Australasian Aerospace Non-destructive Testing Committee
 - Australian Industry Group
 - Australian Institute for Non-Destructive Testing
 - ANSTO
 - Australian Pipeline Industry Association
 - Bureau of Steel Manufacturers of Australia
 - Engineers Australia
 - National Association of Testing Authorities Australia
 - TestSafe Australia
 - Victorian WorkCover Authority
 - Welding Technology Institute of Australia
-

This Standard was issued in draft form for comment as DR 06720.

Standards Australia wishes to acknowledge the participation of the expert individuals that contributed to the development of this Standard through their representation on the Committee and through public comment period.

Keeping Standards up-to-date

Australian Standards® are living documents that reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued.

Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments that may have been published since the Standard was published.

Detailed information about Australian Standards, drafts, amendments and new projects can be found by visiting www.standards.org.au

Standards Australia welcomes suggestions for improvements, and encourages readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at mail@standards.org.au, or write to Standards Australia, GPO Box 476, Sydney, NSW 2001.

Non-destructive testing—Ultrasonic testing of fusion welded joints in carbon and low alloy steel

RECONFIRMATION NOTICE

Technical Committee MT-007 has reviewed the content of this publication and in accordance with Standards Australia procedures for reconfirmation, it has been determined that the publication is still valid and does not require change.

Certain documents referenced in the publication may have been amended since the original date of publication. Users are advised to ensure that they are using the latest versions of such documents as appropriate, unless advised otherwise in this Reconfirmation Notice.

Approved for reconfirmation in accordance with Standards Australia procedures for reconfirmation on 1 May 2017.

The following are represented on Technical Committee MT-007:

Australasian Thermographers Association
Australian Aerospace Non-Destructive Testing Committee
Australian Institute for Non-Destructive Testing
Australian Nuclear Science & Technology Organisation
AUSTROADS
Engineers Australia
Institute of Electrical Inspectors
National Association of Testing Authorities Australia
New Zealand Non-Destructive Testing Association
TestSafe Australia
WorkSafe Victoria

NOTES

Australian Standard[®]

**Non-destructive testing—Ultrasonic
testing of fusion welded joints in carbon
and low alloy steel**

Originated as AS B261.1—1968 and AS B260.1A—1968.
Previous edition AS 2207—1994.
Fourth edition 2007.
