New Zealand Standard

**Quality assurance requirements
for measuring equipment**

**Part 1: Metrological confirmation
system for measuring equipment**

AS 3912.1—1993/NZS 10012.1:1993/ISO 10012-1:1992

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee QR/9, Quality Management — Measurement and Test Equipment. It was approved on behalf of the Council of Standards Australia on 24 May 1993 and on behalf of the Council of Standards New Zealand on 4 June 1993. It was published on 12 July 1993.

The following interests are represented on Committee QR/9:

Australian Defence Industries
Australian Electrical and Electronic Manufacturers Association
Australian Organization for Quality
Commonwealth Scientific, Industrial and Research Organization
Department of Defence, Australia
Department of Health, New South Wales
Federation of Automotive Products Manufacturers
Industrial Research Institute New Zealand
Institute of Metals and Materials
Institute of Quality Assurance
National Association of Testing Authorities Australia
National Standards Commission
Standards New Zealand
Telecom Australia
Testing Laboratories Registration Council of New Zealand

Review of Standards. To keep abreast of progress in industry, Joint Australian/New Zealand Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Joint Standards and related publications will be found in the Standards Australia and Standards New Zealand Catalogue of Publications; this information is supplemented each month by the magazines 'The Australian Standard' and 'Standards New Zealand', which subscribing members receive, and which give details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Joint Standards, addressed to the head office of either Standards Australia or Standards New Zealand, are welcomed. Notification of any inaccuracy or ambiguity found in a Joint Australian/New Zealand Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 92141.X.
