

Australian Standard[®]

Greenhouse gases

Part 1: Specification with guidance at the organization level for quantification and reporting of greenhouse gas emissions and removals

This Australian Standard® was prepared by Committee EV-015, Greenhouse Gas Measurement and Accounting. It was approved on behalf of the Council of Standards Australia on 19 October 2006.

This Standard was published on 27 November 2006.

The following are represented on Committee EV-015:

- A3P
 - Australian Chamber of Commerce and Industry
 - CRC for Greenhouse Accounting
 - Consumers' Federation of Australia
 - Department of Natural Resources and Water (Qld)
 - Engineers Australia
 - JAS-ANZ
 - Minerals Council of Australia
 - NSW Greenhouse Gas Abatement Scheme
-

This Standard was issued in draft form for comment as DR 06560.

Standards Australia wishes to acknowledge the participation of the expert individuals that contributed to the development of this Standard through their representation on the Committee and through public comment period.

Keeping Standards up-to-date

Australian Standards® are living documents that reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued.

Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments that may have been published since the Standard was published.

Detailed information about Australian Standards, drafts, amendments and new projects can be found by visiting **www.standards.org.au**

Standards Australia welcomes suggestions for improvements, and encourages readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at **mail@standards.org.au**, or write to Standards Australia, GPO Box 476, Sydney, NSW 2001.
