

AS 3727—1993

Australian Standard[®]

Guide to residential pavements

This Australian Standard was prepared by Committee BD/25, Residential Slabs and Footings. It was approved on behalf of the Council of Standards Australia on 29 July 1993 and published on 11 October 1993.

The following interests are represented on Committee BD/25:

Association of Consulting Engineers, Australia
Australian Geomechanics Society
Australian Institute of Building Surveyors
Australian Timber Research Institute
Australian Uniform Building Regulations Coordinating Council
Building Management Authority of West Australia
Cement and Concrete Association of Australia
Clay Brick and Paver Institute
Concrete Masonry Association of Australia
Construction Industry Advisory Council, Queensland
Department of Administrative Services—Australian Construction Services
Division of Building, Construction & Engineering, CSIRO
Foundation and Footings Society, Victoria
Housing Industry Association, Australia
Institution of Engineers, Australia
Master Builders Australia
Plastics Industry Association
South Australian Department of Housing & Construction
Steel Reinforcement Institute of Australia
University of South Australia

Additional interests participating in preparation of Standard:

Australian Asphalt Pavement Association

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 92076.
