

AS 2578, Part 1—1983

Australian Standard<sup>®</sup>

---

**TRAFFIC SIGNAL CONTROLLERS**

**Part 1—PHYSICAL AND  
ELECTRICAL  
COMPATIBILITY**

---

This Australian standard was prepared by Committee LG/6, Road Traffic Signals. It was approved on behalf of the Council of the Standards Association of Australia on 21 September 1982 and published on 10 January 1983.

---

The following interests were represented on the committee responsible for the preparation of this standard:

Australian Automobile Association  
Australian Electrical and Electrical Manufacturers Association  
Australian Road Research Board  
Confederation of Australian Industry  
Department of Transport and Construction  
National Association of Australian State Road Authorities  
Railways of Australia Committee  
State road authorities  
State traffic authorities  
University of Melbourne  
University of New South Wales

---

**Review of Australian Standards.** To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

---

*This standard was issued in draft form for comment as DR 80119.*
