

Australian/New Zealand Standard™

**Information and documentation—RFID  
in libraries**

**Part 1: Data elements and general  
guidelines for implementation**

## **AS/NZS ISO 28560.1:2015**

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee IT-019, Information and Documentation, Information Technology—Learning, Education, Training and Research. It was approved on behalf of the Council of Standards Australia on 30 November 2015 and on behalf of the Council of Standards New Zealand on 23 November 2015. This Standard was published on 23 December 2015.

---

The following are represented on Committee IT-019:

Australian Computer Society  
Australian Library and Information Association  
Council of Australian University Librarians  
CSIRO  
Education and Communities, NSW  
Institute for Metadata Management  
La Trobe University  
National and State Libraries Australasia  
National Library of New Zealand  
Northern Territory Library  
Tertiary Library Networks  
University of Southern Queensland  
University of Waikato

---

### **Keeping Standards up-to-date**

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at [www.saiglobal.com.au](http://www.saiglobal.com.au) or Standards New Zealand web site at [www.standards.co.nz](http://www.standards.co.nz) and looking up the relevant Standard in the on-line catalogue.

For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

## PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee IT-019, Information and Documentation, Information Technology—Learning, Education, Training and Research, to supersede AS/NZS ISO 28560.1:2013.

The objective of this Standard is to specify a model for the use of radio frequency identification (RFID) tags for items appropriate for the needs of all types of libraries, including academic, public, corporate, special and school.

This Standard is identical with, and has been reproduced from ISO 28560-1:2014, *Information and documentation—RFID in libraries, Part 1: Data elements and general guidelines for implementation*.

As this Standard is reproduced from an International Standard, the following applies:

- (a) In the source text ‘this part of ISO 28560’ should read ‘this Australian/New Zealand Standard’.
- (b) A full point substitutes for a comma when referring to a decimal marker.

References to International Standards should be replaced by references to Australian or Australian/New Zealand Standards, as follows:

| <i>Reference to International Standard</i>                                       | <i>Australian/New Zealand Standard</i>   |
|--|--|
| ISO  | AS/NZS ISO   |
| 28560 Information and documentation—RFID in libraries                            | 28560 Information and documentation—RFID in libraries                            |
| 28560-2 Part 2: Encoding of RFID data elements based on rules from ISO/IEC 15962 | 28560.2 Part 2: Encoding of RFID data elements based on rules from ISO/IEC 15962 |
| 28560-3 Part 3: Fixed length encoding  | 28560.3 Part 3: Fixed length encoding  |

Only normative references that have been adopted as Australian or Australian/New Zealand Standards have been listed.

The terms ‘normative’ and ‘informative’ have been used in this Standard to define the application of the annex to which they apply. A ‘normative’ annex is an integral part of a Standard, whereas an ‘informative’ annex is only for information and guidance.

## CONTENTS

|           |   |           |
|-----------|---|-----------|
| <b>1</b>  | <b>Scope</b> .....  | <b>1</b>  |
| <b>2</b>  | <b>Normative references</b> .....   | <b>1</b>  |
| <b>3</b>  | <b>Terms and definitions</b> .....  | <b>1</b>  |
| <b>4</b>  | <b>User data elements</b> .....   | <b>2</b>  |
|           | 4.1 Overview of user data elements.....   | 2         |
|           | 4.2 Use of user data elements.....  | 4         |
|           | 4.3 Maintenance of the list of data elements used.....                                  | 11        |
| <b>5</b>  | <b>System data elements</b> .....   | <b>11</b> |
|           | 5.1 System data versus user data.....   | 11        |
|           | 5.2 System data elements for identification and item security in libraries.....         | 11        |
| <b>6</b>  | <b>Tools for data security and integrity</b> .....                                      | <b>13</b> |
| <b>7</b>  | <b>Regional and business profiling</b> .....  | <b>13</b> |
|           | 7.1 Elements for profiles.....  | 13        |
|           | 7.2 Regional profiles.....  | 13        |
|           | 7.3 Business profiles.....  | 13        |
| <b>8</b>  | <b>Privacy issues</b> .....   | <b>14</b> |
| <b>9</b>  | <b>Implementation and migration</b> .....   | <b>15</b> |
|           | 9.1 New RFID implementations.....   | 15        |
|           | 9.2 Migration for regional models.....  | 15        |
|           | 9.3 Use of the correct AFI value.....   | 15        |
|           | 9.4 Discrimination between ISO 28560-compliant and non-compliant tags.....              | 15        |
|           | 9.5 Migrations of ISO/IEC 18000-3 Mode 1 RFID tags.....                                 | 16        |
|           | 9.6 Migrations of other RFID tag technologies.....                                      | 16        |
|           | 9.7 Conversion methodologies.....   | 16        |
|           | 9.8 Preservation of business profiles during migration.....                             | 17        |
| <b>10</b> | <b>Label design and location of the label</b> .....                                     | <b>17</b> |
|           | 10.1 Label design.....  | 17        |
|           | 10.2 Location of the RFID label.....  | 17        |
|           | <b>Annex A (informative) Information about ISO 28560 RFID in libraries</b> .....        | <b>18</b> |
|           | <b>Annex B (informative) Uniqueness of RFID tags</b> .....                              | <b>19</b> |
|           | <b>Annex C (normative) Type of usage code values (hexadecimal)</b> .....                | <b>20</b> |
|           | <b>Annex D (informative) Country prefixes for supplier identifier</b> .....             | <b>22</b> |
|           | <b>Annex E (informative) Interoperability characteristics of security systems</b> ..... | <b>23</b> |
|           | <b>Bibliography</b> .....   | <b>28</b> |
