

# Australian/New Zealand Standard™

## Electric cables—Polymeric insulated

### Part 1: For working voltages 1.9/3.3 (3.6) kV up to and including 19/33 (36) kV

### **AS/NZS 1429.1:2006**

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee EL-003, Electric Wires and Cables. It was approved on behalf of the Council of Standards Australia on 3 April 2006 and on behalf of the Council of Standards New Zealand on 31 March 2006.

This Standard was published on 21 April 2006.

---

The following are represented on Committee EL-003:

Australasian Railway Association  
Australian Electrical and Electronic Manufacturers Association  
Australian Industry Group  
Canterbury Manufacturers Association New Zealand  
Department of Primary Industries, Mine Safety (NSW)  
Electrical Contractors Association of New Zealand  
Electrical Regulatory Authorities Council  
Energy Networks Association  
Engineers Australia  
Ministry of Economic Development (New Zealand)

---

### **Keeping Standards up-to-date**

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at [www.standards.com.au](http://www.standards.com.au) or Standards New Zealand web site at [www.standards.co.nz](http://www.standards.co.nz) and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

---

*This Standard was issued in draft form for comment as DR 05363.*
