

Australian Standard™

**Metal finishing—Thermoset powder
coatings**

This Australian Standard was prepared by Committee MT-009, Metal Finishing. It was approved on behalf of the Council of Standards Australia on 18 April 2005. This Standard was published on 18 May 2005.

The following are represented on Committee MT-009:

Australian Aluminium Council
Australian Chamber of Commerce and Industry
Australian Industry Group
Australasian Institute of Metal Finishing
Australian Paint Manufacturers Federation
Department of Defence
Galvanizers Association of Australia
Institute of Materials Engineering Australia
The Royal Australian Chemical Institute
Society of Automotive Engineers—Australasia
Telstra

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about Standards can be found by visiting the Standards Web Shop at www.standards.com.au and looking up the relevant Standard in the on-line catalogue.

Alternatively, the printed Catalogue provides information current at 1 January each year, and the monthly magazine, *The Global Standard*, has a full listing of revisions and amendments published each month.

Australian Standards™ and other products and services developed by Standards Australia are published and distributed under contract by SAI Global, which operates the Standards Web Shop.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at mail@standards.org.au, or write to the Chief Executive, Standards Australia, GPO Box 5420, Sydney, NSW 2001.
