STANDARDS
NEW ZEALAND
Pūranga Aotearoa

AS/NZS 61558.2.23:2001

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee EL/2 - Safety of household and similar electrical appliances and small power transformers. It was approved on behalf of the Council of Standards Australia on 2 October 2001 and on behalf of the Council of Standards New Zealand on 12 October 2001. It was published on 12 November 2001.

The following interests are represented on Committee EL/2:

Association of Certification Bodies
Australian Chamber of Commerce and Industry
Australian Electrical and Electronic Manufacturers Association
Canterbury Manufacturers Association New Zealand
Consumer Electronic Suppliers Association, Australia
Electrical regulatory authorities, Australia
Electrical test laboratories
Electrical consultants
Electricity Supply Association of Australia
Institution of Engineers Australia
Metal Trades Industries Association of Australia
Ministry of Consumer Affairs, New Zealand

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Australia web site at www.standards.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia International or Standards New Zealand at the address shown on the back cover.

CONTENTS

	Page
PREFACE	5
Clause	
1 Scope	7
2 Normative references	8
3 Definitions	8
4 General requirements	8
5 General notes on tests	8
6 Ratings	9
7 Classification	10
8 Marking and other information	10
9 Protection against accessibility to hazardous live parts	12
10 Change of input voltage setting	12
11 Output voltage and output current under load	13
12 No-load output voltage	13
13 Short-circuit voltage	14
14 Heating	15
15 Short-circuit and overload protection	15
16 Mechanical strength	15
17 Protection against harmful ingress of dust, solid objects and moisture	16
18 Insulation resistance and electric strength	16
19 Construction	16
20 Components	19
21 Internal wiring	19
22 Supply connection and other external flexible cables or cords	19
23 Terminals for external conductors	19
24 Provision for protective earthing	19
25 Screws and connections	19
26 Creepage distances, clearances and distances through insulation	19
27 Resistance to heat, abnormal heat, fire and tracking	19
28 Resistance to rusting	19

Annexes	21
Annex C Material group II	21
Annex D Material group I	21
Annex L Routine tests (production tests).....	21
Annex ZZ (informative) Variations to IEC 61558-2-23:2000 for application in Australia and New Zealand.....	22
Figure 101 –Impact test for horizontal surface	20
Figure 102 –Impact test for vertical surface	20
Table 101 – Output voltages ratio for safety isolating transformers	14
Table 102 – Output voltages ratio for isolating transformers.....	14
