AS/NZS 61558.2.23

Australian/New Zealand Standard™

**Safety of power transformers, power  
supply units and similar devices**

**Part 2.23: Particular requirements for  
transformers for construction sites  
(IEC 61558-2-23:2000, MOD)**

Standards Australia

**STANDARDS**  
NEW ZEALAND  
*Pūranga Aotearoa*

### **AS/NZS 61558.2.23:2001**

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee EL/2 - Safety of household and similar electrical appliances and small power transformers. It was approved on behalf of the Council of Standards Australia on 2 October 2001 and on behalf of the Council of Standards New Zealand on 12 October 2001. It was published on 12 November 2001.

---

The following interests are represented on Committee EL/2:

Association of Certification Bodies  
Australian Chamber of Commerce and Industry  
Australian Electrical and Electronic Manufacturers Association  
Canterbury Manufacturers Association New Zealand  
Consumer Electronic Suppliers Association, Australia  
Electrical regulatory authorities, Australia  
Electrical test laboratories  
Electrical consultants  
Electricity Supply Association of Australia  
Institution of Engineers Australia  
Metal Trades Industries Association of Australia  
Ministry of Consumer Affairs, New Zealand

---

### **Keeping Standards up-to-date**

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Australia web site at [www.standards.com.au](http://www.standards.com.au) or Standards New Zealand web site at [www.standards.co.nz](http://www.standards.co.nz) and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia International or Standards New Zealand at the address shown on the back cover.

## CONTENTS

	Page
PREFACE .....	5
Clause	
1 Scope .....	7
2 Normative references .....	8
3 Definitions .....	8
4 General requirements .....	8
5 General notes on tests .....	8
6 Ratings .....	9
7 Classification .....	10
8 Marking and other information .....	10
9 Protection against accessibility to hazardous live parts .....	12
10 Change of input voltage setting .....	12
11 Output voltage and output current under load .....	13
12 No-load output voltage .....	13
13 Short-circuit voltage .....	14
14 Heating .....	15
15 Short-circuit and overload protection .....	15
16 Mechanical strength .....	15
17 Protection against harmful ingress of dust, solid objects and moisture .....	16
18 Insulation resistance and electric strength .....	16
19 Construction .....	16
20 Components .....	19
21 Internal wiring .....	19
22 Supply connection and other external flexible cables or cords .....	19
23 Terminals for external conductors .....	19
24 Provision for protective earthing .....	19
25 Screws and connections .....	19
26 Creepage distances, clearances and distances through insulation .....	19
27 Resistance to heat, abnormal heat, fire and tracking .....	19
28 Resistance to rusting .....	19

Annexes .....	21
Annex C Material group II .....	21
Annex D Material group I .....	21
Annex L Routine tests (production tests).....	21
Annex ZZ (informative) Variations to IEC 61558-2-23:2000 for application in Australia and New Zealand.....	22
Figure 101 –Impact test for horizontal surface .....	20
Figure 102 –Impact test for vertical surface .....	20
Table 101 – Output voltages ratio for safety isolating transformers .....	14
Table 102 – Output voltages ratio for isolating transformers.....	14
