Australian/New Zealand Standard®

Safety glazing materials in buildings

AS/NZS 2208:1996

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee BD/7, Glazing and Fixing of Glass. It was approved on behalf of the Council of Standards Australia on 4 October 1996 and on behalf of the Council of Standards New Zealand on 4 October 1996. It was published on 5 December 1996.

The following interests are represented on Committee BD/7:

Architectural Aluminium Association of New Zealand
Architectural Aluminium Fabricators Association, Australia
Australian Association of Certification Bodies
Australian Building Codes Board
Australian Chamber of Commerce and Industry
Australian Chamber of Manufactures
Australian Shopfitters Association
Building Research Association of New Zealand
Flat Glass Council of Australia
Housing Industry Association, Australia
Master Builders Australia
New Zealand Plastics Glazing Materials Suppliers
New Zealand Safety Glass Association
Plastics and Chemicals Industry Association
Property Council of Australia
Residential Window Association
University of New South Wales, Australia
University of Sydney, Australia

Review of Standards. To keep abreast of progress in industry, Joint Australian/New Zealand Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Joint Standards and related publications will be found in the Standards Australia and Standards New Zealand Catalogue of Publications; this information is supplemented each month by the magazines 'The Australian Standard' and 'Standards New Zealand', which subscribing members receive, and which give details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Joint Standards, addressed to the head office of either Standards Australia or Standards New Zealand, are welcomed. Notification of any inaccuracy or ambiguity found in a Joint Australian/New Zealand Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

PREFACE

This Joint Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee BD/7 on Glazing and Fixing of Glass to supersede AS 2208—1978, *Safety glazing materials for use in buildings (human impact considerations)*.

This Standard covers tests to be carried out for the different types of safety glazing material such as laminated, toughened, heat strengthened, toughened laminated, liquid laminated, safety wired, organic-coated, plastic and organic-backed safety mirrors.

This edition incorporates the following major changes from the previous edition:

- (a) The methods of test that were in Appendices B to H have been replaced by Appendices C to I.
- (b) Sampling and acceptance procedures that were in Appendices J and K and compliance verification given in Appendix P have been deleted and replaced by Appendix A.
- (c) Additional impact levels have been added to the impact test.

The terms 'normative' and 'informative' have been used in this Standard to define the application of the Appendix to which they apply. A 'normative' Appendix is an integral part of a Standard, whereas an 'informative' Appendix is only for information and guidance.

Statements expressed in mandatory terms in notes to tables and figures are deemed to be requirements of this Standard.

© Copyright — STANDARDS AUSTRALIA/STANDARDS NEW ZEALAND

Users of Standards are reminded that copyright subsists in all Standards Australia and Standards New Zealand publications and software. Except where the Copyright Act allows and except where provided for below no publications or software produced by Standards Australia or Standards New Zealand may be reproduced, stored in a retrieval system in any form or transmitted by any means without prior permission in writing from Standards Australia or Standards New Zealand. Permission may be conditional on an appropriate royalty payment. Australian requests for permission and information on commercial software royalties should be directed to the head office of Standards Australia. New Zealand requests should be directed to Standards New Zealand.

Up to 10 percent of the technical content pages of a Standard may be copied for use exclusively in-house by purchasers of the Standard without payment of a royalty or advice to Standards Australia or Standards New Zealand.

Inclusion of copyright material in computer software programs is also permitted without royalty payment provided such programs are used exclusively in-house by the creators of the programs.

Care should be taken to ensure that material used is from the current edition of the Standard and that it is updated whenever the Standard is amended or revised. The number and date of the Standard should therefore be clearly identified.

The use of material in print form or in computer software programs to be used commercially, with or without payment, or in commercial contracts is subject to the payment of a royalty. This policy may be varied by Standards Australia or Standards New Zealand at any time.

FOREWORD	4
SECTION 1 SCOPE AND GENERAL	
1.1 SCOPE	5
1.2 APPLICATION	5
1.3 REFERENCED DOCUMENTS	5
1.4 DEFINITIONS	6
1.5 TESTING	7
1.6 CLASSIFICATION	7
1.7 MARKING	7
1.8 VENTS	8
SECTION 2 DIMENSIONAL SPECIFICATIONS	
2.1 GENERAL	9
2.2 THICKNESS REQUIREMENTS	9
2.3 SIZE TOLERANCE REQUIREMENTS	11
2.4 SQUARENESS OF RECTANGULAR PANELS—REQUIREMENTS	11
2.5 FLATNESS REQUIREMENTS	12
2.6 EDGEWORK	12
SECTION 3 TEST REQUIREMENTS	
3.1 GENERAL	13
3.2 IMPACT TEST	13
3.3 FRAGMENTATION TEST	14
3.4 BOIL TEST	14
3.5 WEATHERING TEST	15
3.6 AGEING TEST	15
APPENDICES	
A MEANS FOR DEMONSTRATING COMPLIANCE WITH THIS STANDARD	16
B NOTES ON SAFE PERFORMANCE CRITERIA AND HUMAN DYNAMICS DATA	18
C DETERMINATION OF THICKNESS	20
D IMPACT TEST	21
E FRAGMENTATION TEST	28
F BOIL TEST	30
G WEATHERING TEST	31
H AGEING TEST	33
I UNIFORMITY/SURFACE COMPRESSION	34

Originated as AS 2208—1978.
Jointly revised and designated AS/NZS 2208:1996.

Incorporating:
Amdt 1—1999
