Australian/New Zealand Standard™

**Conformity assessment—Requirements  
for bodies providing audit and  
certification of management systems**

## **AS/NZS ISO/IEC 17021:2011**

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee QR-010, Conformity Assessment. It was approved on behalf of the Council of Standards Australia on 17 October 2011 and on behalf of the Council of Standards New Zealand on 25 October 2011.

This Standard was published on 11 November 2011.

---

The following are represented on Committee QR-010:

Association of Accredited Certification Bodies  
Australian Information Industry Association  
Certification Interests (Australia)  
Consumers Federation of Australia  
International Accreditation Forum  
Joint Accreditation System of Australia and New Zealand  
National Association of Testing Authorities Australia  
New Zealand Organisation for Quality

---

### **Keeping Standards up-to-date**

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at [www.saiglobal.com.au](http://www.saiglobal.com.au) or Standards New Zealand web site at [www.standards.co.nz](http://www.standards.co.nz) and looking up the relevant Standard in the on-line catalogue.

For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

## PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee QR-010, Conformity Assessment, to supersede AS ISO/IEC 17021—2006, *Conformity assessment—Requirement for bodies providing audit and certification of management systems*.

The objective of this Standard is to specify principles and requirements for the competence, consistency and impartiality of the audit and certification of management systems of all types (e.g. quality management systems or environmental management systems) and for bodies providing these activities.

This Standard is identical with, and has been reproduced from ISO/IEC 17021:2011, *Conformity assessment—Requirements for bodies providing audit and certification of management systems*.

As this Standard is reproduced from an International Standard, the following applies:

- (a) Its number appears on the cover and title page while the International Standard number appears only on the cover.
- (b) In the source text ‘this International Standard’ should read ‘this Australian/New Zealand Standard’.
- (c) A full point substitutes for a comma when referring to a decimal marker.

References to International Standards should be replaced by references to Australian or Australian/New Zealand Standards, as follows:

<i>Reference to International Standard</i>	<i>Australian/New Zealand Standard</i>
ISO	AS/NZS ISO
9000    Quality management systems— Fundamentals and vocabulary	9000    Quality management systems— Fundamentals and vocabulary
ISO/IEC	AS ISO/IEC
17000    Conformity assessment—Vocabulary and general principles	17000    Conformity assessment—Vocabulary and general principles

The terms ‘normative’ and ‘informative’ have been used in this Standard to define the application of the annex to which they apply. A ‘normative’ annex is an integral part of a Standard, whereas an ‘informative’ annex is only for information and guidance.
