Australian/New Zealand Standard™

Safety of machinery

**Part 3611: Conveyors—Belt conveyors
for bulk materials handling**

AS/NZS 4024.3611:2015

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee SF-041, Safety of Machinery. It was approved on behalf of the Council of Standards Australia on 10 August 2015 and on behalf of the Council of Standards New Zealand on 2 July 2015.

This Standard was published on 21 August 2015.

The following are represented on Committee SF-041:

Australian Chamber of Commerce and Industry
Australian Industry Group
Australian Manufacturing Workers Union
Department of Trade and Investment, Regional Infrastructure and Services, NSW
Engineers Australia
Human Factors and Ergonomics Society of Australia
Institute of Instrumentation, Control and Automation Australia
National Safety Council of Australia
New Zealand Electrical Institute
Safety Institute of Australia
Winery Engineering Association
WorkCover New South Wales
Worksafe New Zealand
WorkSafe Victoria

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at www.saiglobal.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

This Standard was issued in draft form for comment as DR AS/NZS 4024.3611.

AS/NZS 4024.3611:2015

Australian/New Zealand Standard™

Safety of machinery

Part 3611: Conveyors—Belt conveyors for bulk materials handling

Originated in Australia in part as AS C215—1971.
Previous edition part of AS 1755—2000.
Jointly revised in part and redesignated as AS/NZS 4024.3611:2015.

PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee SF-041, Safety of Machinery to supersede (in part) AS 1755—2000, *Conveyors—Safety requirements*.

The objective of this Standard is to provide guidance and clarity in applying the principles articulated in the AS 4024.1 series of Standards to BMH belt conveyors.

This Standard comprises the safety measures to be implemented for the lifecycle of bulk materials handling (BMH) belt conveyors and conveyor systems, both above ground and underground. This Standard also sets out the necessary risk control measures against hazards experienced by workers and others in the vicinity of such plant.

The terms ‘normative’ and ‘informative’ have been used in this Standard to define the application of the appendix to which they apply. A ‘normative’ appendix is an integral part of a Standard, whereas an ‘informative’ appendix is only for information and guidance.

CONTENTS

	<i>Page</i>
SECTION 1 SCOPE AND GENERAL	
1.1 SCOPE.....	4
1.2 APPLICATION	4
1.3 REFERENCED DOCUMENTS.....	4
1.4 DEFINITIONS.....	4
SECTION 2 REQUIREMENTS FOR DESIGN	
2.1 DESIGN RISK ASSESSMENT	5
2.2 GENERAL DESIGN REQUIREMENTS.....	6
2.3 ENVIRONMENTAL CONTROL	7
2.4 DESIGN FOR OPERABILITY AND MAINTAINABILITY	8
2.5 ENERGY AND ISOLATION	10
2.6 ELECTRICAL REQUIREMENTS	11
2.7 ILLUMINATION	12
2.8 BMH BELT CONVEYOR CONTROL	12
2.9 FIRE PROTECTION	15
2.10 SAFEGUARDS	15
2.11 TRAMP MATERIAL REMOVAL	21
SECTION 3 REQUIREMENTS FOR SPECIFIC LOCATIONS AND TYPES	
3.1 RECLAIM TUNNELS IN HAZARDOUS AREAS AND COAL MINES	22
3.2 BMH BELT CONVEYORS FOR MINING—PRESTART WARNING.....	22
3.3 BELTING AND ACCESSORIES IN UNDERGROUND COAL MINES	22
3.4 FLEXIBLE CONVEYOR TRAINS (FCTs).....	22
3.5 CABLE BELT TYPE CONVEYORS	23
3.6 TRAVELLING TRIPPERS, SHUTTLE AND RADIAL CONVEYORS FOR BMH	23
3.7 PERSON-RIDING ON CONVEYOR BELTS	25
SECTION 4 INSTALLATION COMMISSIONING	
4.1 BELT ALIGNMENT AND TRACKING.....	26
4.2 BELT SPLICES AND MECHANICAL JOINTS.....	26
SECTION 5 MAINTENANCE	
5.1 MAINTENANCE INVOLVING STORED ENERGY	27
5.2 IDLER MANAGEMENT	27
5.3 BELT TRACKING	27
5.4 BELT SPLICES AND MECHANICAL JOINTS.....	27
5.5 BELT INTEGRITY	27
APPENDICES	
A EXAMPLES OF RISKS ASSOCIATED WITH BMH BELT CONVEYORS	29
B BMH BELT CONVEYOR FATALITIES IN MINING	33
C BMH BELT CONVEYOR TYPES	41
D REFERENCED DOCUMENTS.....	45
