

AS 4029.2—1992

Australian Standard[®]

Stationary batteries—Lead-acid

Part 2: Valve-regulated sealed type

This Australian Standard was prepared by Committee EL/5, Secondary Batteries. It was approved on behalf of the Council of Standards Australia on 31 March 1992 and published on 13 July 1992.

The following interests are represented on Committee EL/5:

- Australian Automobile Association
- Australian Automotive Aftermarket Association
- Australian Electrical and Electronic Manufacturers Association
- Australian Federation of Consumer Organizations
- Australian Lead Development Association
- Confederation of Australian Industry
- Department of Defence
- Electricity Supply Association of Australia
- Federal Chamber of Automotive Industries
- Institution of Engineers, Australia
- Railways of Australia Committee
- Telecom Australia

Additional interests participating in preparation of Standard:

- Civil Aviation Authority

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 90066.
