

AS 1762—1984

Australian Standard[®]

**HELICAL LOCK-SEAM
CORRUGATED STEEL PIPES —
DESIGN AND INSTALLATION**

This Australian standard was prepared by Committee WS/11, Corrugated Metal Drainage Pipes and Arches. It was approved on behalf of the Council of the Standards Association of Australia on 7 September 1984 and published on 7 December 1984.

The following interests are represented on Committee WS/11:

Confederation of Australian Industry
Department of Public Works, New South Wales
Metal Trades Industry Association of Australia
National Association of Australian State Road Authorities
Public Works Department, Victoria
Railways of Australia Committee
University of Adelaide
University of New South Wales

Review of Australian Standards. *To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.*

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.
