(IEC 60335-2-90:2002, IDT)
(Incorporating Amendment 1)

Australian/New Zealand Standard™

Household and similar electrical
appliances – Safety –

Part 2.90: Particular requirements for
commercial microwave ovens
(IEC 60335-2-90:2002, IDT)

AS/NZS 60335.2.90:2002

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee EL-002 - Safety of household and similar electrical appliances and small power transformers. It was approved on behalf of the Council of Standards Australia on 8 October 2002 and by the Council of Standards New Zealand on 2 October 2002. It was published on 22 November 2002.

The following interests are represented on Committee EL-002

Association of Certification Bodies
Australian Chamber of Commerce and Industry
Australian Electrical and Electronic Manufacturers Association
Canterbury Manufacturers Association New Zealand
Consumer Electronic Suppliers Association, Australia
Electrical regulatory authorities, Australia
Electrical test laboratories
Electrical consultants
Electricity Supply Association of Australia
Institution of Engineers Australia
Metal Trades Industries Association of Australia
Ministry of Consumer Affairs, New Zealand

Keeping Standards up-to-date

Standards are living documents, which reflect progress in science, technology and systems.

To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Australia web site at www.standards.org.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue. Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comment to the Chief Executive of either Standards Australia International or Standards New Zealand at the address shown on the back cover.

CONTENTS

FOREWORD.....	4
INTRODUCTION.....	6
1 Scope	7
2 Normative references	7
3 Definitions	7
4 General requirement.....	8
5 General conditions for the tests	8
6 Classification.....	9
7 Marking and instructions	9
8 Protection against access to live parts	10
9 Starting of motor-operated appliances.....	11
10 Power input and current.....	11
11 Heating	11
12 Void	11
13 Leakage current and electric strength at operating temperature	11
14 Transient overvoltages	11
15 Moisture resistance	12
16 Leakage current and electric strength	12
17 Overload protection of transformers and associated circuits	12
18 Endurance.....	13
19 Abnormal operation	13
20 Stability and mechanical hazards	15
21 Mechanical strength	16
22 Construction.....	17
23 Internal wiring.....	21
24 Components	22
25 Supply connection and external flexible cords	22
26 Terminals for external conductors	23
27 Provision for earthing.....	23
28 Screws and connections	23
29 Clearances, creepage distances and solid insulation	23
30 Resistance to heat and fire	23
31 Resistance to rusting	24
32 Radiation, toxicity and similar hazards	24

Annexes	26
Annex ZZ (informative) Variations to IEC 60335-2-90:2002 for application in Australia and New Zealand.....	28
Bibliography	26
Figure 101 – Test rod for interlock concealment	25
Table 101 – Number of potatoes	15
