Australian/New Zealand Standard™

## Steel utility services poles

## **AS/NZS 4677:2010**

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee CE-019, Utility Service Poles. It was approved on behalf of the Council of Standards Australia on 24 May 2010 and on behalf of the Council of Standards New Zealand on 28 May 2010.

This Standard was published on 29 June 2010.

---

The following are represented on Committee CE-019:

Bureau of Steel Manufacturers of Australia  
Concrete Pipe Association of Australasia  
Electricity Engineers Association (New Zealand)  
Energy Networks Association  
National Precast Concrete Association Australia  
New Zealand Concrete Society  
New Zealand Heavy Engineering Research Association  
New Zealand Timber Industry Federation

---

### **Keeping Standards up-to-date**

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at [www.saiglobal.com.au](http://www.saiglobal.com.au) or Standards New Zealand web site at [www.standards.co.nz](http://www.standards.co.nz) and looking up the relevant Standard in the on-line catalogue.

For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

---

*This Standard was issued in draft form for comment as DR 05426.*

## PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Standards Committee CE-019, Utility Services Poles, to supersede AS/NZS 4677:2000.

The objective of this Standard is to provide the designers, manufacturers and purchasers of steel utility services poles with a specification for their manufacture.

The terms ‘normative’ and ‘informative’ have been used in this Standard to define the application of the appendix to which they apply. A ‘normative’ appendix is an integral part of a Standard, whereas an ‘informative’ appendix is only for information and guidance.

## CONTENTS

	<i>Page</i>
<b>SECTION 1 SCOPE AND GENERAL</b>	
1.1 SCOPE .....	4
1.2 APPLICATION .....	4
1.3 REFERENCED DOCUMENTS .....	4
1.4 DEFINITIONS AND DIMENSIONS .....	4
1.5 CLASSIFICATION .....	4
1.6 MARKING .....	4
<b>SECTION 2 GENERAL REQUIREMENTS</b>	
2.1 MATERIALS .....	6
2.2 DESIGN FOR STRENGTH AND SERVICEABILITY .....	6
2.3 FABRICATION .....	6
2.4 ASSEMBLY AND ERECTION .....	8
<b>SECTION 3 PARTICULAR REQUIREMENTS</b>	
3.1 STREET LIGHTING POLES .....	10
3.2 FLOODLIGHTING AND COMMUNICATION POLES .....	11
3.3 AERIAL CONDUCTOR POLES .....	12
3.4 TRAFFIC SIGNAL POLES .....	12
<b>APPENDICES</b>	
A MEANS FOR DEMONSTRATING COMPLIANCE WITH THIS STANDARD .....	13
B REFERENCED STANDARDS AND OTHER DOCUMENTS .....	15
C EXAMPLES OF SLIP-BASE SYSTEMS .....	17
D ELECTRICAL DISCONNECT SYSTEM .....	20
E INFORMATION TO BE SUPPLIED BY PURCHASER .....	21
